ALL U.S. PRESIDENTIAL CANDIDATES SHOULD COMMIT TO ENDING THE DEADLIEST AND MOST DANGEROUS EPIDEMICS IN THE WORLD

Infectious diseases around the world pose human rights, security and economic threats – and will become worse with climate change.

End Pandemics 2020 is a non-partisan effort reaching out to all U.S. presidential campaigns. It will not endorse or promote any particular campaign. Learn more and pledge your support at EndPandemics2020.org.
ALL PRESIDENTIAL CANDIDATES SHOULD MAKE A COMMITMENT TO STOP THE DEADLY GLOBAL EPIDEMICS OF TODAY AND TOMORROW

America has led the world in making dramatic progress against the world’s deadliest infectious diseases. We know how to end AIDS, tuberculosis and malaria and prevent emerging outbreaks. But we now need presidential leadership to finish the job.

Health is a human right and, in our increasingly interconnected world, the well-being of people in the United States is tied to the well-being of people outside our borders. **Bold global health action will make the world safer, more prosperous and more just.**

JOIN US

End Pandemics 2020 brings together leading health, human rights, faith, environmental and research organizations across the country.

We urge all candidates for U.S. President to chart a bold, human-rights based path for U.S. leadership to end the world’s three deadliest epidemics, stop future pandemics and respond to the global health threats posed by climate change.
