Scoring matrix developed by DEFRA is as follows

Scoring Matrix	Welfare Standards			
	Minimum Standards (licence conditions as laid down in the schedules and guidance)		Higher Standards (as laid down in the guidance)	
Minor Failings (existing businesses that are failing to meet minimum standards)				
<b>Risks</b>				
Low Risk	1 year licence	3 Stars	5 Stars	
		2 year licence	3 year licence	
High Risk	1 Star	2 Stars	4 Stars	
	1 year licence	1 year licence	2 year licence	

The welfare standards are those set out in the Regulations and guidance to the Regulations. All businesses should meet the minimum standards to get a licence and therefore receive a 2 or 3 star rating. However, minor failings that do not compromise the welfare of animals, eg administrative issues, may allow for a licence to be with a rating of 1 star.

The guidance to the Regulations are specific to the type of activity and include a number of higher standards which businesses may aspire to in order to receive a higher standard rating as these are not mandatory in order to obtain a licence. The higher standards are divided into required and optional, a business needs to meet all the required higher standards and a minimum of 50% of the optional higher standards to qualify as meeting the higher standards.

All new and current businesses without three years previous compliance history with a local authority will be automatically rated high risk.

Businesses highlighted red are not accepting new customers.
