On February 28, the CTCI welcomed 6 Russian visitors who were participating in the International Visitor Leadership Program (IVLP) on higher education in collaboration with the U.S. Department of State.

The visitors were interested in learning about services and resources for college students with disabilities, including information about campus career services, working with employers, and assisting students with disabilities to access opportunities in higher education.

Nancy Forsythe from the UMCP Career Resource Center joined CTCI staff in presenting an over-view of CTCI and campus programs and policies. CTCI continues to be a resource to local, national and international entities and potential partners.
