WHAT IS THE DIFFERENCE BETWEEN THE STAGE AND SPRITES?

In this activity, you will create a project that experiments with backdrops, like a story with multiple scenes or a slideshow.

START HERE

- Choose from the library, paint, or upload multiple backdrops into your project.
- Experiment with blocks from the Looks and Events categories to initiate switching backdrops.
- Add scripts to the stage and sprites to coordinate what happens when the backdrop changes in your project!

```
switch backdrop to backdrop1
```

```
when backdrop switches to backdrop1
```

```
backdrop name
```

THINGS TO TRY

- Look for blocks under the sprites and the stage related to backdrop and test them out to see what they do!
- Need more inspiration? Explore the Scratch online community to discover projects that use multiple backdrops.

FINISHED?

+ Add your project to the Scenes Studio: http://scratch.mit.edu/studios/475550
+ Challenge yourself to do more! Add more backdrop changes to your project.
+ Help a neighbor!
+ Return to one of your previous projects or find a project you are inspired by and remix it by adding switching backdrops.
