

The sizes of the bangle

How to choose the size of your bangle ?

To choose the correct size, you just need to know the maximum circumference of your hand to ensure that it fits into the bangle.

- Measure the circumference of your hand with a tape measure at the widest point as shown in the picture.
- Remember to put the band on the " ★ " so that your size is well adjusted.

The most important thing to know

- It is essential to take into account that the bangle bracelet has more margin compared to the bracelet with a chain and that there is more movement.
