

Video transcript Signal's School of Geocaching Module 1

0:00 Hi I'm Adam.

0:01 My Geocaching username is Captain cookie.

0:04 Geocaching to me is discovering the details,
0:08 finding the best view in town, taking the detour, and enjoying the moment with
friends.

0:14 This is how it all started.

0:16 Find a variety of caches and hiding spots in under a minute.

0:21 I walked by a Geocache on my way to work every day not even knowing they were
there. After downloading the app and navigating to the first one,
0:31 It took me some time to find it.

0:33 No wonder I didn't know they were there.

0:36 One of them was perfectly camouflaged.

0:39 The other one was magnetic and tiny.

0:42 But I remembered to bring my pen, got the logbook, and signed my user name.

0:47 I placed the cache back exactly where I found it.

0:51 Then I logged my find online.

0:53 I let the cache owner know that it was in great shape and that I had a fun time
finding it. Then I made it to work on time wondering where I would cache next.
