THE ONLY THING BIGGER THAN THE WORLD IS FEAR

Lucy’s life by the pond has always been full. She has water and friends, laughter and the love of her adoptive mother, Lynn, who has made sure that Lucy’s childhood was very different from her own. Yet it seems Lucy’s future is settled already—a house, a man, children, and a water source—and anything beyond their life by the pond is beyond reach.

When disease burns through their community, the once life-saving water of the pond might be the source of what’s killing them now. Rumors of desalinization plants in California have lingered in Lynn’s mind, and the prospect of a “normal” life for Lucy sets the two of them on an epic journey west to face new dangers: hunger, mountains, deserts, betrayal, and the perils of a world so vast that Lucy fears she could be lost forever, only to disappear in a handful of dust.

MINDY McGINNIS

Mindy McGinnis is an assistant YA librarian who lives in Ohio. She graduated from Otterbein University with a BA in English Literature and Religion. Mindy grew up in the woods, and had a deep desire to see if she could survive out there on her own if the situation ever presented itself. That never happened, and the introduction of the internet has quelled that urge. She loves being a writer, because it's the only occupation where you can legitimately stare into space and claim to be working.
