

Kerr-McGee Chemical Corp – Jacksonville Superfund Site Jacksonville, Florida

Community Meetings and Drop-in Information Sessions

Wednesday, December 14, 2022

Community Meetings – *virtual*

12:30 p.m. – 1:30 p.m.

and

5:30 p.m. – 6:30 p.m.

Thursday, December 15, 2022

Drop-In Information Sessions – *in-person*

12:30 p.m. – 2:30 p.m. & 5:30 p.m. – 7:30 p.m.

Jacksonville Main Library,

The Lounge at 303 North, 303 N. Laura St.

The U.S. Environmental Protection Agency (EPA) and the Multistate Environmental Response Trust (Multistate Trust) are hosting community events to share information about the cleanup activities to begin in 2023 at the Kerr-McGee Chemical Corp – Jacksonville Superfund Site on Talleyrand Avenue. Topics will include the final engineering design of the planned cleanup and the Deer Creek investigation.

Join Our Virtual Community Meetings, Dec. 14

- **Zoom:** Use <https://us06web.zoom.us/j/9465848922> or enter <https://tinyurl.com/jaxmeetings> in your browser. Use password B8U7EX.
- **Phone:** Call 646-876-9923. Enter meeting ID 946 584 8922 and passcode 664564.
- Both meetings will begin with the same presentation. A question-and-answer period will follow.
- Call (540) 846-3163 for help joining a meeting.

Come to Our Drop-In Information Sessions at Main Library, Dec. 15

- Speak one-on-one with cleanup team members and ask questions.
- As you enter the Main Library's N. Laura Street entrance, the Lounge at 303 North is located to your left.
- Parking is free at the Duval Street Parking Garage at 33 W. Duval Street for the first hour if you get your ticket validated in the library.
- Refreshments will be provided.

Site Background

The Site consists of ±31 acres at 1611 Talleyrand Avenue on the west bank of the St. Johns River in the predominantly industrial port of Jacksonville. From 1893 to 1978, Kerr-McGee and its predecessors used the Site to manufacture, formulate, package, and distribute fertilizers, pesticides, and herbicides. Site contaminants—primarily pesticides and metals—are present in soil, sediment, and groundwater at concentrations that may pose a threat to human health and the environment.

The Multistate Trust

The Multistate Trust is a private, independent entity created as part of a bankruptcy settlement to own, investigate, and clean up the Site and facilitate safe, beneficial Site reuse and long-term stewardship.

The Multistate Trust performs its Site-related work under EPA oversight in consultation with the Florida Department of Environmental Protection (FDEP). EPA and FDEP both must approve property sale or other disposition. Site cleanup funds were paid by Kerr-McGee and other companies responsible for Site contamination.

Greenfield Environmental Multistate Trust LLC is the court-appointed Trustee of the Multistate Trust. The Multistate Trust owns and manages hundreds of contaminated, former Kerr-McGee sites in approximately 30 states. Visit multistatetrust.org.

These events will not cover personal injury or property claims. The Multistate Trust cannot pay such claims. For more information, please contact the Tronox Tort Claims Trust at (800) 753-2480 or tronoxorttrust@epiqglobal.com or visit www.tronoxorttrust.com.
