The U.S. Environmental Protection Agency and the Multistate Environmental Response Trust (Multistate Trust) are hosting community events to share information about the planned cleanup (Remedial Action) to begin in 2024 at the Kerr-McGee Chemical Corp – Jacksonville Superfund Site on Talleyrand Avenue. Topics will include the Deer Creek investigation.

These community events will serve as the EPA Remedial Action Kickoff Meetings.

Join Our Virtual Community Meetings, January 31

- **Zoom:** Use <https://us06web.zoom.us/j/9465848922> or enter <https://tinyurl.com/jaxmeetings> in your browser. Use password B8U7EX.
- **Phone:** Call 646-876-9923. Use meeting ID 946 584 8922 and passcode 664564.
- Both meetings will begin with the same presentation. A question-and-answer period will follow.
- Call (540) 846-3163 for help joining a meeting.

Come to Our Drop-In Information Sessions at Silkie’s Restaurant, February 1

- Speak one-on-one with cleanup team members and ask questions.
- View informational posters to learn more about the planned cleanup.
- Refreshments will be provided.

Site Background

The Site consists of ±31 acres at 1611 Talleyrand Avenue on the west bank of the St. Johns River in the predominantly industrial port of Jacksonville. From 1893 to 1978, Kerr-McGee and its predecessors used the Site to manufacture, formulate, package, and distribute fertilizers, pesticides and herbicides. Site contaminants—primarily pesticides and metals—are present in soil, sediment and groundwater at concentrations that may pose a threat to human health and the environment.

The Multistate Trust

The Multistate Trust is a private, independent entity created as part of a bankruptcy settlement to own, investigate and clean up the Site and facilitate safe, beneficial Site reuse and long-term stewardship.

The Multistate Trust performs its Site-related work under EPA oversight in consultation with the Florida Department of Environmental Protection (FDEP). The transfer or sale of any portion of the Site must be approved by the Multistate Trust's beneficiaries, which are represented by the EPA and FDEP. Site cleanup funds were paid by Kerr-McGee and other companies responsible for Site contamination.

Greenfield Environmental Multistate Trust LLC is the court-appointed Trustee of the Multistate Trust. Visit multistatetrust.org.

These events will not cover personal injury or property claims. The Multistate Trust cannot pay such claims. For more information, please contact the Tronox Tort Claims Trust at (800) 753-2480 or tronoxorttrust@epiglobal.com or visit www.tronoxorttrust.com.
