Face Coverings

Cloth face coverings may be challenging for campers, but they may wear them at their discretion. Camp counselors will wear masks in the presence of anyone not in their assigned group. Their small group (COF) is defined as the people in their tent. There should be no more than 12 people in this outdoor tent. There will be 2 COFs allowed in each class/small group. Neither staff nor campers can associate with people outside their COF for the entire length of the camp, except in emergency conditions.

Kitchen staff will wear face coverings in the presence of campers or staff outside their immediate residential group.

Administration will wear face coverings in the presence of campers or staff outside of their immediate residential group.

Bible teachers will wear face coverings when in the presence of campers, staff, or other adults outside of their residential group.

Gloves are not needed except by medical personal and kitchen staff in the course of their normal duties. They should be warn when dealing with refuse/unsanitary areas/transporting items at checking in or checkout. They should immediately be disposed of in a regular trashcan as soon as the required action is finished.

Cloth face coverings SHOULD NOT be placed on:

- Babies or children under 2
- People with breathing problems
- Unconscious people
- In the Pool area

Cloth coverings are meant to protect other people, not the wearer.

IF dealing with a situation with an ACTIVE possibility of COVID19 a medical personal should wear:

Medical surgical grade mask (N95), full body medical grade gowns, medical gloves, face shield or eye covering. Donning and Doffing should be done in the immediate area outside of the patient. Hands should be washed with soap for at least 20 seconds. Material should be disposed of immediately in the provided red biohazard bags and placed for pickup for Dr Hannel at the medical clinic. It SHOULD NOT go in the regular trash.
