Things to prepare for the Summit

Networking
Most people come to Summits to network and connect with likeminded individuals, so these points may assist you in being prepared:

- **Business cards** – some people hand out business cards to every person they speak to; others selectively hand out cards. It is good practice to have some form of contact information on you, so that when you choose to connect with others, you can provide these details in an easy format.
- **Branding statement** – if someone asks you “what do you do?”, be ready with a short and concise answer that not only provides information, but shares something interesting, so they can remember you well.
- **Ice-breakers** – you may notice some people are great at starting conversations with others without any hesitation. If you want to talk to someone and are not sure how to start without seeming terribly awkward, you can find ‘common ground’ by asking things like, “Is this your first time at the Autism at Work Summit?”, “What did you enjoy most about the previous Summit?”, or try a more unique approach and ask: “What’s your biggest accomplishment so far this year?”, or “What inspires you about neurodiversity?”

Technology
- **Charge the batteries!** – Make sure to charge all devices you are bringing to the Summit before the Summit. While there will be some plug outlets on location, it is better to have a fully charged device so you can record important moments.
- **Necessary accessories** – If you are bringing any technological equipment or devices to the Summit, be prepared by making sure you have all the associated cords, plugs and batteries/chargers for the device, as well as your mouse, etc.
- **Adaptor plugs** – If you are arriving from an international destination to come to the Summit, you may need to bring the adaptor plug.

Notetaking
- **Pens and Paper** – It is advisable to bring more than one ballpoint pen with you to the Summit, in case the other loses ink halfway through the day. Paper may also assist for notetaking. Of course, you can use your device if you prefer.
Wellbeing

While this is a business event, it does not mean your wellbeing loses importance. You can prepare to self-care during the Summit by following these tips:

- **Clothing for cold weather** – We are in Melbourne after all, so bring a coat/ scarf/gloves and an umbrella. It can also get quite chilly in the conference rooms, because of the over-active air-conditioners, so you may like to wear layers.
- **Headphones** – If you know that auditory sensations can become overwhelming for you, bring your headphones.
- **Toiletries** – If you have any extra needs, you can keep all those relevant items in a toiletries bag (e.g. deodorant, tissues, toothbrush and toothpaste, feminine products, make-up, comb, medication, etc.) and bring it with you on the day.
- **Medication** – If you need to take regular medication, continue to do so during the Summit. You can go to the bathroom at any time to take medication, if you need to.
- **Snacks** – You can snack during the Summit. While there is a lot of food provided during the Summit, you may prefer personal food items. You can bring a few small items if you want to.
- **Water bottle** – You can drink water during the Summit. While water is provided during the day, if you want your own personal bottle, you can bring it with you.
- **Sensory items** – At the Summit, there will be a sensory-friendly room open for neurodiverse attendees, but if you want to bring your own sensory items, you are most welcome.
- **Money** – We do not recommend you bring a lot of money with you to the Summit, but it is always helpful to have a few dollars on you to account for unexpected needs on the day, and/ or attending post-Summit dinners with your colleagues/ newly-met people.

Amenities at the Summit (on location)

At the AutismCRC Hackathon in 2016, there was a red dot which we autistics could have on our name tags to help secure our personal space/ sensory needs. Will that sort of system be available at the Summit?

There is a sensory room available for you to take time out to yourself, if you need it. Dots will be small round coloured stickers, and they will be provided at the Summit and can be collected at registration during 8.30am – 9am.

There will be three coloured dot stickers available at this Summit:

- A red dot sticker = Means, “I don’t want to talk”
- An orange dot sticker = Means, “I will talk a little bit”.
- A green dot sticker = Means, “I am happy to talk”.

Choose the coloured dot that makes you feel most comfortable. If you are not sure, we recommend getting an orange dot AND a red dot.

On registration, if you cannot see the dots, or no-one is giving them to you, ask: “Can I please have a dot?” and specific the colour(s) you want.

If you lose your dot or it gets stuck somewhere unwanted, you can obtain another NEW dot from the AutismCRC Staff. Look for their name badges.

What is the WiFi password?
This will be provided to attendees on the day.

Will there be photography and videography allowed at the event?

The best way to ensure the official photographer does not take pictures of you is to approach them directly and let them know. You can also send an email aws@untapped-group.com with an attached photo of you, so we can identify you. If any photos have been taken (by accident/ or you are in a group shot), we can remove them from public display.

If I want copies of photographs with me in them, how do I get those?
Ask the photographer, and send an email to aws@untapped-group.com with an attached photo of you, so we can identify you.
