

BAHAMIAN BOOKS

This catalogue features the widest available range of non-fiction books (and many fiction titles) by Bahamian authors, or about The Bahamas. A separate catalogue of text books is also available.

These books are distributed by Media Enterprises Ltd, and a number of them are actually Media's own imprints. We have been a major communications agency since 1984 and our book publishing and distribution division was added in 1995.

Media Enterprises has accounts with most British, American and Caribbean educational publishers, and stocks a large range of general interest titles covering The Bahamas and the Caribbean.

As a publisher we specialise in well-written informational texts about The Bahamas. We also offer low-cost services to local authors for privately published works in short runs.

The prices listed in this catalogue are wholesale prices and are available to Bahamian bookstores, schools, libraries and other similar institutions. We supply over 50 bookstores and other retail outlets throughout The Bahamas.

We wholesale books, maps and charts to shops, schools, libraries, charities and government agencies. Our wholesale price list is updated monthly.

The titles listed here are normally in stock and can be delivered immediately. We also accommodate special orders from schools and libraries for less common titles or for large quantities.

All orders are billed in Bahamian dollars and include free delivery on New Providence, or to a mailboat. Family Island customers pay the mailboat.

Shipments are received from the US every three to four weeks, and from the UK every four to six weeks, depending on demand.

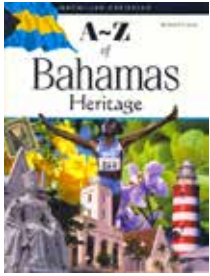

We hold a large number of publisher's catalogues and samples, and inspection copies can also be arranged.

Payments can be made by cash, cheque or Visa/MasterCard. Businesses may apply for a 30-day credit account.
