

# SIMON WRIGHT

## FIND YOUR PARTNER'S RING SIZE

This document will allow you to measure a ring that your partner already owns in order to determine their ring size.

All you need to do is print this page, ensuring that you do not have "fit to page" or "printable area" selected. Place and align the ring onto the sizing circles so you can just see the dotted line on the inside of the ring.

## FREE RING RESIZING

When you choose Simon Wright to design and create your beautiful bespoke ring, there's no need to stress about sizing. If the ring doesn't fit, we will resize it for you, free of charge.
