Updated COVID-19 Policy for HMCC

Effective August 15, 2021

- Following CDC guidance, masks will be required in the sanctuary for all people, including those who are vaccinated, while Wake County is experiencing high or substantial levels of transmission as defined by the CDC.

- Masks will be required in the church building for groups of more than 10 people, including those who are vaccinated, while Wake County is experiencing high or substantial levels of transmission as defined by the CDC.

- Group gatherings of 10 or fewer fully vaccinated persons may meet in the church building without wearing masks. All people should put on a mask prior to entering the building. Those who are meeting in a small group may remove their masks once it is confirmed, in person, that all persons in the room are vaccinated and in agreement.

- Those who have not been vaccinated against COVID-19 should continue to wear masks at all times when inside the church building.

- Our nursery staff and all children’s ministry volunteers will continue to wear masks at all times when children are present.

- We will not ask worshippers about their vaccination status. We trust that those who are not vaccinated will adhere to the CDC guidelines to protect themselves and their neighbors.

- The use of prepackaged communion will continue for the time being.

- Online worship services will continue to stream on Facebook at 10AM on Sundays, and on demand afterwards.

- If you are experiencing any respiratory symptoms, please utilize the online worship option until symptoms are resolved.

These policies will be evaluated regularly and any changes shared with the congregation in the Midweek Messenger and on the church website.
