ABSINTHE

Nouvelle Orleans [136 proof]: 22.00
A French absinthe with a clear, light green color which is an indicator of fresh wormwood. Nouvelle Orleans has an intensely herbaceous and floral bouquet of mint, anise, lemon balm and verbena.

St. George Absinthe Verte [120 proof]: 21.00
The first legal American absinthe released in the US in over 95 years and heralded as America’s Original Craft Distillery founded in 1982, St. George was rumored to be making their absinthe for 11 years prior to the US ban being lifted in 2007 (for personal consumption only of course!). Distilled from star anise, fennel and grande wormwood and then infused with mint, basil, tarragon, lemon balm, hyssop, meadowsweet, stinging nettles and a second dose of petite wormwood; It opens with spicy black licorice and then slowly evolves into citrus and grass profiles with a dose of sarsaparilla.

Clandestine [106 proof]: 20.00
Is a famous Suisse le bleu absinthe. Clear in color and one of the smoothest of all absinthe. Made in Switzerland, the birthplace of absinthe.

Butterfly Classic Absinthe [130 proof]: 20.00
Butterfly absinthe is a modern Suisse rendition of a classic pre-prohibition absinthe produced in Boston in the early 1900s. Produced using grande wormwood, petite wormwood, hyssop, peppermint, star anise, fennel and citrus, Butterfly combines the best of both worlds: American heritage and recipe with Swiss “know how” and ingredients.

Pernod Absinthe [136 proof]: 20.00
Is a French absinthe that was one of the more popular absinthes before the ban of 1912 in the US. Now after 95 years, Pernod makes its comeback as a quintessential absinthe. Made with fennel, anise and grande wormwood.

Grande Absinthe [138 proof]: 19.00
French absinthe with a bright green tint. The absinthe is nicely balanced with aromas of wormwood, mint, anise and lemon balm.

Mata Hari [120 proof]: 18.00
Austrian absinthe with an earthy green color. This is a Bohemian style absinthe which means less anise. It has aromas of gentian, angostura with hints of mint.

Lucid [124 proof]: 20.00
A French absinthe, Lucid is the first genuine absinthe to gain approval for legal distribution in the US since 1912. The absinthe is light green colored and flavored only with natural ingredients such as green anise, grande wormwood and sweet fennel.

Kubler [106 proof]: 18.00
Suisse absinthe from what is known as the birthplace of absinthe. Kubler is clear until it produces an opaque, milky, white louche. The absinthe is distilled from Suisse wheat including lemon balm, star anise and Roman wormwood.

Drink responsibly. 2238838
HOUSE COCKTAILS
