ANNUAL REPORT

Phoenix House Mid-Atlantic
57 YEARS OF LIFE SAVING TREATMENT

200 North Glebe Road
Suite 104
Arlington, VA 22203

www.phoenixma.org
DEAR FRIENDS,

It is my pleasure to present to you the annual report for Phoenix House Mid-Atlantic. I continue to be humbled by the generosity of so many individuals, families, companies, and foundations who believe in the work that we do here everyday.

This report highlights what has been accomplished by the organization this past fiscal year and how your gifts have impacted the lives of our patients. You will read the story of a patient whose life changed as a result of treatment in our Phoenix Program.

I cannot thank you enough - our donors, our Board of Directors, and our community advocates who help us make an impact on lives every day.

DEBORAH S. TAYLOR
President & CEO

"It won't take a village to treat the opioid epidemic; it will take a nation."
~ Debby Taylor
PQA Summit November 2018

Nelson's story has become too common in today's world.

Nelson started drinking when he was 13 years old and as he got older, the drinking was a way of coping with the pain he would deal with at home. "I started to realize that the more I drank, the less pain I would feel, so I just drank more and more."

After two DUI incidents, Nelson didn't know how to deal with his trouble with addiction. "I went to a couple Alcoholics Anonymous meetings and had a sponsor who told me that I just had bad luck. I thought what he said was true, so I continued to go to meetings, act like I was sober, but continue to drink."

One day, Nelson woke up in a jail cell and didn’t know what happened and why he was there. "I was pulled over and arrested for my third DUI." Nelson knew at that moment he needed to address his addiction problem and get the help he needed. He called his mother and asked for her help. "That's when she told me that Phoenix House had a men's residential program."

There was still one issue; how to pay for treatment. After his initial assessment, Nelson found out that his insurance wouldn't cover his treatment. Nelson then found out that there was another way Phoenix House could help. Through the Patient Assistance Fund, Nelson was able to be admitted into the Phoenix Program and receive the treatment he needed. "The Patient Assistance Fund and Phoenix House saved my life. I don't know where I would be without the help they've given me."

Nelson will soon be discharged from the Phoenix Residential Program and transition to outpatient treatment. "I'm excited to start a new chapter in my life. I'm ready to keep getting better."

"The Phoenix House Mid-Atlantic Patient Assistance Fund saved my life!"
WHERE YOUR FUNDS WENT

Donations made to Phoenix House Mid-Atlantic addressed a number of growing needs in our organization.

**The Young Adult Treatment Fund**

The Young Adult Treatment Fund was established by the family of a young man, from Arlington, VA, who died in 2012 at the age of 31, after struggling for years with addiction. This fund helps cover the cost for young adults ages 18 to 30 who otherwise could not afford treatment.

**The Patient Assistance Fund**

The Patient Assistance Fund was created to help cover costs for all patients when their insurance or personal funds do not completely cover the full course of needed treatment.

**FUNDS RAISED IN FY2019**
