Professional Practice Standing Committee Governance A6

PPP Working Groups
Membership
Projects
Recommendations
✓ Promote the legal professional recognition and protection of title/fields of work by the concerned governmental bodies for all landscape practitioners belonging to the member associations.

✓ Help member associations achieve an official recognition as reliable organizations and points of reference about all landscape architectural matters by their concerned governmental bodies.

✓ Set up and/or reinforce an efficient steering structure of the PPP Committee, to help secure a constant and immediate bidirectional flow of information and feedbacks to/from the Regions, Sub-regions, PPP Working Groups, member Associations and their own members.

✓ Establish, promote and support appropriate exchanges of professional information, researches and projects among the IFLA Regions, Sub-regions, member Associations and IFLA Committees’ Working Groups, to set up a global network of cooperation.

✓ A strategy is set to link each Working Group with a sister association by means of strategic Memorandums of Understanding.

Projects

Recommendations
The International Union of Architects (UIA) and the International Federation of Landscape Architects (IFLA) have recognised an opportunity for the two professions to work together in ecosystem restoration. They have therefore agreed to work together to promote Indigenous Ecosystem Corridors and Nodes as a joint venture. To turn this into practice across the membership of the two organisations each has appointed a Co-Convener with a Working Group. The UIA has assigned this initiative as a Task Force within the UIA Commission on the UN Sustainable Development Goals.

### Development Goals

<table>
<thead>
<tr>
<th>1 No Poverty</th>
<th>2 Zero Hunger</th>
</tr>
</thead>
<tbody>
<tr>
<td>No Poverty</td>
<td>Zero Hunger</td>
</tr>
<tr>
<td>Currently 1 in 5 on less than needed for subsistence</td>
<td>Currently 1 in 9 are undernourished. Reduce to zero by 2030</td>
</tr>
</tbody>
</table>

### Potential Contributions through the IEC+N Project

- Employment opportunities in creating and maintaining the urban forest
- Improved environmental comfort and reduced thermal stress
- Improved air quality
- Integrated very low cost urban food production
- Production of cooking fuels, and fibres to reduce purchases and provide materials
- Production of materials for construction
- Reduced damage and losses from storms and flooding

- Local production of low cost food - particularly fruit and vegetables
- Production of fuels for cooking and heating

IFLA Statement on Climate and Biodiversity Emergency

IUCN MEMBERSHIP
Currently, the purpose of the task-force is to support, promote and facilitate the participation of young professionals in IFLA activities.

MoU ECLAS

PRESENTATION DURING CONGRES. 18-9-2019, 17.00 TO 19.30H, Room TBC
The current purpose of this committee is to relieve, assist, and develop areas after a natural disaster and to find ways to do it locally. Currently, the largest time and effort is put into finding partners to facilitate and finance the operational activities.

MOU Architectes Sans Frontieres

PRESENTATION DURING CONGRES. 18-9-2019, 17.00 TO 19.30H, Room
The current committee main aim is to develop capacity to assist the landscape architect profession in all levels of cultural landscapes and to build external fruitful partnerships.

The International Scientific Committee on Cultural Landscapes
ICOMOS-IFLA
The ILO task force was set up in spring 2019. The main objective of this committee is to work on the definition of profession that should be oriented not on a detailed job description but more on global tasks and targets.

Recomendations
Projects of Professional Practice Standing Committee:

1- CODE OF ETHICS – KEY THEME 4: PROPOSAL OF a SET OF ETHICAL PRINCIPALS
2- PREP SURVEY – KEY THEME 3 – EDUCATION AND ACCREDITATION
3- STRATEGY FOR INTERNATIONAL RECOGNITION OF PROFESIONAL QUALIFICATION
3- STRATEGY FOR INTERNATIONAL RECOGNITION OF PROFESSIONAL QUALIFICATION

1. IFLA policy and service to Mutual recognition of membership in national associations by bilateral agreements between NA. (service to IFLA members via PREP SURVEY CLUSTER ANALYSIS)

2. IFLA policy and service to assist the individual migration of professionally qualified landscape architects as member in another national association. (service to individuals)

3. IFLA would coordinate and recognize existing accreditation bodies (i.e. CLARB) and NA already performing excellent individual professional recognition as Landscape Architect (title, professional activity and rights) = e.g. Landscape Architects certified by CLARB. (service to IFLA members)

4. IFLA would establish and lead professional recognition /accreditation process for individuals by offering a procedure to award Individual Professional international excellence. This means IFLA gives the title IFLA certified Landscape Architect which has no legal status. (service to individuals)
RECOMMENDATIONS (MOTIONS TO VOTE):

• Adopting cloud based achieve and online management tool.
• For consideration under the discussion of the WC B.6 IFLA Strategy FOR INTERNATIONAL RECOGNITION of PROFESSIONAL Qualifications: Initial phase
• Vote on the draft for C.1. Proposals for IFLA Global Principles of Landscape Practice
• Ratification of the CAT A Membership application approved by the PPP Committee
• Approval of the proposal for reorientation of the WG under PPP. WG Chairs need to be voted or ratified.
• Extending Trello and Drive as Communication and managing tool among IFLA structure.
THANK YOU!
