**KEY IMPACT METRICS**

- **9.2M+** people reached since inception
- **73%** women and **64%** rural
- **1.2M+** active end borrowers
- **69K+** smallholder farmers supported

ABOUT

Philanthropic guarantees enable MCE Social Capital (MCE) to leverage the excellent credit of high net worth individuals and foundations (our Guarantors) to borrow capital from U.S. and European financial institutions and accredited investors. MCE then strategically deploys this capital to two types of organizations:

- **Financial service providers (FSPs)** that help people living in rural areas gain access to credit, savings accounts, insurance, healthcare and health education, business education, and technical assistance.

- **Small and growing businesses (SGBs)** in the food & agriculture, water & sanitation, and renewable energy sectors, to create reliable jobs in rural economies, raise smallholder farmers’ incomes, and address basic needs in underserved areas.

**IN GOOD COMPANY**

MCE’s Guarantor community consists of more than 140 individuals and foundations representing $150.8M in loan guarantees, backing MCE’s Inclusive Finance and SGB portfolios with $128.6M and $22.2M respectively.

**IMPACT AREAS**
