**EDUCATION**

**President Trump:** "...I will be the nation’s biggest cheerleader for school choice in all 50 states."

**Congressional Black Caucus:** “Rather than address ... interconnected barriers to academic achievement, your plan would strip away $20 billion in funding from public schools in order to create the largest private school voucher program in American history.”

**Q:** CitizenDetroit question: Many agree that public education must improve, especially for low income and minority children. For you, what is the most important way to ensure that all children receive a quality education?

PRESIDENT TRUMP’S NEW DEAL FOR BLACK AMERICA

HEALTHCARE

President Trump: “If we don’t repeal and replace this disastrous law (Obamacare), we will lose our healthcare system forever.”

US. Rep Joe Kennedy III: “There is no mercy in a system that makes healthcare a luxury.”

Q: CitizenDetroit question: How much responsibility do you believe the government has in ensuring that everyone has healthcare coverage? How does that compare to the government’s obligation to be fiscally responsible with taxpayer dollars?

Policing & Civil Rights

President Trump: “The war on police urged on by my rival is reckless, and dangerous, and puts African-American lives at risk. We must work with our police, not against them.”

Congressional Black Caucus: “Unfortunately, your actions... raise great concerns about the prospects of continuing the progress [on police reform] made under the outgoing Administration.”

Q: CitizenDetroit question: After years of efforts to combat abuses in police departments and the criminal justice system, the pendulum is swinging back towards emphasizing “law and order.” For you, what is the most important way to ensure safe neighborhoods without violating the civil rights of individuals?

JOBS & ECONOMY

President Trump: “At the center of my revitalization plan is the issue of trade.... lower the business tax from 35% to 13% ... massive middle class tax cut .... I will also pursue financial reforms [such as repealing Dodd-Frank regulations] ...

Congressional Black Caucus: “The CBC supports a national strategy to eliminate poverty ... Tax incentives alone will not restore struggling communities.... target investment to those communities that need it most ... Your [deregulation] proposals ... show a lack of awareness of the impact [predatory lending has] had on our communities.”

CitizenDetroit question: President Trump promised deregulation, tax cuts, “America First” trade deals, and infrastructure projects to create jobs. What do you believe are the key actions government can take to support jobs and businesses?
