Consultant Team
- Matt Raimi, Raimi + Associates

MEETING MINUTES

Presentation
Community Development Director Mark Towne provided a presentation on the planning principles and the general plan update. The presentation included an overview of the existing general plan structure and elements, and information about zoning, specific plans, and other land use restrictions.
**Question and Answer**
Following the presentation, members of the committee and the public in attendance made comments and asked questions of Community Development staff and Matt Raimi (Raimi + Associates). The topics of the questions included housing, aging population, jobs and income, Measure E, infrastructure, transportation, pollution (light, air, etc.), technology trends and how they affect land use, and climate change.

Committee members requested that the GPAC have in-depth conversations on some topics including housing (diversity, affordability, and State requirements), and sustainability.

**Next steps**
Following Q&A, the team discussed next steps and upcoming community engagement.
