Dear MUN Mannheim family, dear friends,

In light of recent decisions to contain coronavirus spread at the university, we are announcing that all our society’s events will be cancelled until April 20th at least. No weekly sessions nor weekend workshops will take place, as the university has suspended all teaching operations until the aforementioned date, and we do not want our members to be put at risk. We will reschedule bigger events to some later dates in May. Please expect further announcements in this regard.

The decision to suspend all internal events does not affect our planned trips to the conferences, which will be held during that time or shortly after, as such. For this matter, we will be awaiting an official statement by the conferences’ organizers. It will also not influence the events that are scheduled for May or June for now.

We will continue to monitor the situation in the university and hope to be back in action on April 21st. Until now, stay clean and healthy.

Your MUN Mannheim board
