Weil Institute
Research Road Guide

On every path, we have the tools to help your research reach its destination.

Special Events
Hosting member events to promote networking, training, education and funding opportunities.

Commercialization Coach
Strategically collaborating with PIs and teams to propel products to commercial viability.

Data Science Team
Harnessing data to develop models which predict patient outcomes and analyzing data for new technology insight.

Proposal Development Unit
Consulting and services for multi-disciplinary teams pursuing research awards.

Pre-Clinical Laboratory
Generating high-fidelity large animal models of multisystem disease and injury.

Clinical Research Unit
Assisting investigators with patient recruitment, IRB submissions, and data collection/processing.
