BOOKFEEDING PROJECT
CHALLENGE

Over one billion people in villages and rural areas in the Global South lack educational material.

Eight million people cannot read or write. Two-thirds of them are girls and women.

OUR VISION

Positive change starts with education. We Bookfeeders envision a world in which everyone has access to quality education.
WHAT WE DO

- We help to build public libraries for communities in need all over the world.

- All Bookfeeding libraries are equipped with carefully selected books and other educational material.

- We cooperate with local communities to ensure that all projects are sustainable.

- Bookfeeding volunteers can visit projects to bring more books, gain new experiences and share their skills.
