Adventures Without Limits takes health and safety very seriously. We have implemented a number of new practices into our programs to help prevent the spread of Covid-19. You can read a full list of our new policies on our website at www.awloutdoors.org/covid19. We are following advisement from the experts at the CDC and the Oregon Health Authority. All policies are subject to change as new information becomes available.

By choosing to participate in AWL Summer Camp, you acknowledge that you or your child may be at risk of exposure to Covid-19. All participants are responsible for adhering to the following guidelines while participating in AWL programs.

**Wellness Screenings for All Staff and Participants**

All participants will be screened upon arrival, and prior to the activity for the following:

- Does the individual have a fever greater than or equal to 100.3° F?
- Does the individual have a new cough?
- Shortness of breath or difficulty breathing?
- Chills?
- Muscle pain?
- Sore throat?
- New loss of taste or smell?

Answers for each participant will be recorded. If an individual answers ‘Yes’ to any of the above, the individual must not continue with the activity. Adventures Without Limits reserves the right to turn any participant away if they pose a risk to other participants. Campers who answer ‘Yes’ to any of the above questions may be asked to stay home for the remainder of the week. *(Per OHA Guidelines)*

**Use of Masks**

We ask that all campers bring two (2) masks with them to camp: non-medical grade masks that cover mouth and nose.

All employees and campers must wear a mask while indoors, inside AWL vehicles, or within 6 feet of others when outdoors. Campers are responsible for bringing their own masks. AWL will have additional masks available for emergency situations. Campers must follow directions from AWL staff regarding when to wear masks.

**Hand-Washing**

Please send hand sanitizer with your camper to camp. All campers must wash their hands immediately upon arrival at camp. Campers must also wash hands after using the bathroom, eating, drinking, touching their face, or any time they feel they have come in contact with questionable contaminants. AWL Staff will provide our handy “Wishy Washy” system to facilitate handwashing where there are not sinks available. Hand sanitizer will be used in between every activity.

**Sanitizing Practices**

All gear, safety equipment, PFDs, immersion wear, or anything else used during the day will be properly cleaned and sanitized before being returned. AWL staff will facilitate gear distribution in such a way to avoid gear sharing or swapping. Campers may be asked to help sanitize their own equipment at the end of the day.
