

# Tips for Hosting Your Food Drive

Food drives are a great way to bring people together to support Ballard Food Bank. You can run a food drive at your work, school, church, and beyond. Rally your friends and neighbors!

- **Promote your event:** Use our printable posters, flyers and social media posts to spread the word about your food drive!
- **Pick a great location:** Think about how you can capture the most foot traffic for your food drive - your building's lobby, school gates, or a supermarket in the area.
- **Create a competition:** Giving classrooms or departments a fun incentive to gather the most donations can be motivating!
- **Use our resources:** We have event signage, an Impact Fact Sheet, a list of our Most Needed Items and a QR code that links to our donation page to make financial donations easy too.
- **Make it fun:** Share updates & pictures of your progress with your team and on social media. Use our certificates to award participants!
