Tamiami Trail Next Steps Project Update
Partnerships to Support Everglades Restoration

SFER Working Group/ Science Coordination Group
September 28, 2021

Robert Johnson - DOI / OERI
Tamiami Trail
Modified Water Deliveries (2014)
1-Mile Bridge, Partial Roadway Raising

Tamiami Trail
Next Steps Phase 1 (2019)
3.3-Miles Bridging, No Additional Roadway Improvements

Tamiami Trail
Next Steps Phase 2 (expected mid 2024)
Remaining Roadway Reconstructed, Six Small Bridges
Tamiami Trail Roadway Typical Section

New Stormwater System
Improved Drainage and Water Quality Treatment

Existing Roadway

Protecting the Roadway from High Water Impacts (removal of organic soils, geosynthetic reinforcement)
Tamiami Trail Roadway Construction Phases

Phase 1 (Build EB lanes)

Phase 2 (Build WB lanes)
