COMPLIANCE WITH THE RULES

These AIBA Technical and Competition Rules apply to all AIBA's AOB Competitions and are the only AIBA Technical and Competition Rules worldwide that AIBA National Federations and members of the AIBA boxing community must follow and respect in all of their boxing Competitions in accordance to the Competition level. No National Federation may develop its own Technical and Competition Rules that are contradictory to these rules. However National Federations, for National Competitions, may alter these rules to reflect National laws or regulations, as long as, the alteration does not diminish the rules, especially with regards to medical and safety requirements.
