Sensory and Accessibility Information

Physical Accessibility
The paths leading up to the Museum are brick. The stairs are brick and the two ramps are concrete. The stairs and ramps all have metal railings. The wooden stairs on the side of the building are infrequently used but also have metal railings. The museum has no interior stairs and has seating available. Wheelchairs are permitted throughout the museum. The water fountain in the lobby is at a height accessible to wheelchair users.

Noises and Videos
There are two videos in the Museum. One of them (Building the Dream) plays on a loop throughout the day and can be loud. The second video (Priscilla’s Legacy) can be played by pressing a button on a kiosk. Priscilla’s Legacy has volume adjustment and closed captioning. Throughout the Museum are QR codes, many leading to videos. Keep in mind that visitors may choose to listen to these without headphones.

Crowds
Sometimes the Museum can be busy. If crowds or unexpected noises are a concern, please call the Museum to inquire about events or school groups scheduled for the day of your visit. Visitors in need of a quiet area during their visit should contact staff.

Lighting
The Museum has indoor fluorescent lighting. Many exhibit cases are lit. There are no flashing or strobe lights.

Restrooms
The Museum has two single-occupant restrooms. The restrooms do not have changing tables for adults or children.

Pets
Though we love animals, pets are not allowed within in the Museum. Service animals are permitted.

Smells
Smoking and vaping are not permitted within the Museum building. Guests may smoke outside. There are no exhibits that include smells or smelling. We ask that you don’t wear strong colognes, perfumes, or body sprays.

Feel free to print this guide and bring it with you on your visit to the Museum. We can’t wait to see you!
