Welcome to VACEP's 2022 CME Conference.

It's been two years since we have been able to gather in person for our annual CME conference. We're happy you're here, even it may still look a little different. Whether you're a first timer or a veteran, the weekend promises to be a lot of learning — and some fun mixed in for good measure.

We worked hard to bring you a high-speed learning opportunity focused on modern topics taught by some of emergency medicine's leading minds. We're also thrilled to have ACEP President Gillian Schmitz, MD, FACEP join us for our keynote lecture. Our sessions cover a wide range of trends unique to the emergency medicine specialty, emphasizing special skills associated with emergency medicine. Together, these components describe our clinical practice and differentiate it from other specialties.

As lifelong learners, we're confident the family-friendly Omni Homestead will also give you time to relax, have a little fun — and share emergency medicine's "secret handshake" with your peers. We know you have many options to earn CMEs, so we thank you for choosing and supporting VACEP's 2022 Annual CME conference.

As a national, physician-led practice, we empower EM physicians to focus on what matters most - improving patient lives.

Alteon Health in the Commonwealth

Our talented physicians treat more than 1 million Virginians each year.

This includes 1 out of every 5 patients seen in a Virginia emergency department.

About Alteon Health

- Truly Physician-Led
- Forthright Financials
- Patient Focused
- Impact Driven

Now hiring talented EM clinicians nationwide.
