BUILDING MOMENTUM TOWARDS HEALING AND JUSTICE

10 YEARS OF IMPACT
Dear Alliance,

Kaiser Permanente welcomes you to the National Network of Hospital-based Violence Intervention Programs’ (NNHVIP) 2019 Healing Justice Alliance Conference. This year’s theme, 10 Years of Impact: Building Momentum Towards Healing and Justice, is a tribute and celebration of the important work NNHVIP has done in our communities. Kaiser Permanente is proud to be a part of this annual conference as the title sponsor.

In 2009, our South Sacramento Medical Center became the south area’s only designated Level II Trauma Center, providing an advanced level of trauma care for those with major, life-threatening injuries. In addition to the life-saving care we provide, we developed the Trauma Injury Prevention and Outreach Program to promote healthy behaviors and help prevent unintentional injury and death through intervention, education and outreach.

Sadly, youth-related violence is one of the most common causes of injury seen in our Trauma Center. For nearly 10 years, we have partnered with WellSpace Health, this year’s host organization, on the Sacramento Violence Intervention Program (SVIP). SVIP is a voluntary program offered to victims at no charge to help end the cycle of violence.

We hope that this conference provides you with new learnings, information and partnerships to further our common goal: to provide violence intervention and prevention programs to our impacted communities.

Fatimah Loren Muhammad
Executive Director
National Network of Hospital-Based Violence Intervention Programs

A MESSAGE FROM OUR TITLE SPONSOR

Dear Alliance,

It takes a special kind of courage to address violence within our communities.

It is this courage to heal and transform that has brought us together. Ten years ago, when Marla Becker first convened a small group of hospital-based and hospital-linked programs from across the country, the National Network of Hospital-Based Violence Intervention Programs was born.

Now, it is my distinct pleasure as your first Executive Director to welcome you to this year’s conference: Ten Years of Impact: Building Momentum Towards Healing and Justice. Whether you are joining us for the first time or have been with us since the beginning, you are an indelible part of our national family. From frontline workers to doctors, from hospital administrators to young people—it is our diversity and authentic, lived experiences that make this movement not only powerful, but unstoppable.

Over the next few days, you will have an opportunity to attend dynamic, interactive sessions, bear witness to the voices of those on the frontlines of this work, engage with leading researchers in the field of violence intervention, and break bread with some of the most interesting, fun-loving people I have ever known.

On behalf of our 2019 conference planning committee, NNHVIP’s Advisory Board, our sponsors, and our staff, we thank you for being apart of our incredible movement. We ask that you stay with us as we imagine our next ten years together.

With Deep Gratitude,

Fatimah Loren Muhammad
Executive Director
National Network of Hospital-Based Violence Intervention Programs

**CONFERENCE AGENDA**
Sacramento Youth Violence Intervention Program

At WellSpace Health we believe that everyone deserves to be seen and we see you! Through the Sacramento Violence Intervention Program, we connect youth to life-saving opportunities with peer mentorship and culturally competent therapeutic services.

Kaiser Permanente is committed to the health of the communities we serve. In partnership with WellSpace Health, the Sacramento Violence Intervention Program addresses youth violence in the Sacramento area. We are proud to support the 2019 Healing Justice Alliance Conference. We share a commitment to ending the cycle of violence.

We believe in a healthy future
