

HEIRLOOM

EAST

BAY

nurturing community that bears witness to God's love through hospitality, sustainability, and creativity

FARM STAY

We are not a hotel nor are we merely a personal home. We are an intentional Christian community who desires to thoughtfully welcome guests into our shared life. We hope a farm stay experience provides an opportunity for connection with God, yourself, community, and the land.

Our staff works directly with potential guests to arrange a visit that meets the needs of each guest/group and respects the framework of our community. We have 2 indoor guest rooms and outdoor camping/trailer options.

Guests are invited to join our communal rhythms (daily prayer, farm chores, and a weekly meal). Farmhouse guests can use the coffee & tea station, lending library, and recreation room with movie projector. All guests are welcome to explore the 95 acre property with farm animals, garden, and creek.

All Heirloom residents are vaccinated. We can only host one household of unvaccinated guests at a time.
