The Junior Humanities and Science Symposium (JSHS) is a virtual competition where high school students from Minnesota, North Dakota, and South Dakota present original research papers.

Students compete for $4,500 in undergraduate tuition scholarships.

Top five students advance to National JSHS competition.

Sponsors
- Provide critical funding and assist with volunteer recruitment.
- Receive recognition through newsletter, website, and social media.

Professionals
- Volunteer to provide feedback on student STEM research and presentations.
- Help build the local STEM pipeline.
