MINNESOTA ACADEMY OF SCIENCE
A statewide nonprofit founded in 1873 dedicated to providing opportunities for Minnesotans of all backgrounds to engage in STEM-related learning, inquiry, research and networking

PARTICIPATE in one of our programs

**Minnesota State Science & Engineering Fair**
Statewide showcase with 500 students competing for $20,000 in prizes and qualification for the International Science Fair

**FORSE Mentoring and Enrichment**
Innovative program providing pathways for underrepresented students to engage in STEM learning and research

**Regional Science Bowls**
Quiz bowl style STEM competitions for middle and high school students with winners advancing to national championship

**Winchell Undergraduate Research Symposium**
Forum for college students to present scientific research, hone communication skills and receive feedback from professionals

**North Central Jr Science & Humanities Symposium**
Paper competition promoting original STEM research

ENGAGE with STEM in Minnesota

**Search** for STEM opportunities in your community

**Browse** ideas for community science, STEM learning at home, student opportunities and more

**Connect** with curriculum and professional development resources for STEM educators

VOLUNTEER to support STEM learning

**Mentor** STEM students through our FORSE program

**Judge** or **volunteer** at one of our annual STEM competitions

**Serve** on our Board of Directors to shape the future of STEM education in Minnesota

CONTRIBUTE to our mission

**Donate** to open doors to STEM for Minnesotans of all backgrounds

**Sponsor** one of our programs or a Science Fair award

**Join** the Minnesota Academy of Science with a student, professional or family membership
