<tr>
<td>4.4</td>
<td>Population-based data on disability</td>
<td>Existence of population-based data on disability</td>
<td>YES/NO and description of the survey done in last 10 years (including health data)</td>
<td>Search of websites of key OPDs; key informant interviews</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5.1</td>
<td>Productivity and delivery</td>
<td>OPDs advocate</td>
<td>YES, views of the OPDs on the role of OPDs in advocacy on health and disability</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### 5.2 Autonomy and awareness
People with disabilities report autonomy and awareness about health access

- Yes - in a quantitative survey from within the last 10 years persons with disabilities were asked about autonomy and awareness about health (in comparison to people without disabilities)
- Yes - qualitative data published in the last 10 years in a peer-reviewed journal on reported autonomy and awareness about health

Search of academic and grey literature (e.g. census reports, NGO reports)

### 5.3 Accessibility of health information
Health information is available in accessible formats

- Yes - national COVID19 information and announcement made available at least in the 2 out of the 4 following alternative formats: simple language, sign interpretation or audio recordings, braille information for visually impaired

Search of academic and grey literature (e.g. census reports, NGO reports)

### 6.1 Disability allowance
There is a disability allowance that is available to persons with disabilities

- Yes - with at least 1,000 population coverage, at least 20% per period per time and in a GIS

Search of disability allowance documents (e.g. online or from government); interview with key informants

### 6.2 Transport subsidy available for disabled people
Transport subsidy is available

Yes/No

Interview with key informants; information on disability allowance (e.g. online or from government)

### 6.3 Health coverage
People with disabilities are fully covered free of charge through social health insurance

- Yes

Search of academic and grey literature (e.g. census reports, NGO reports)

### 6.4 Co-pays
Any co-pays for services in other health insurance or post-paid systems are allowed

Yes/No

Key informant interviews

### 7.1 Training of medical doctors
Information about disability included as part of the national curricula for medical doctors

- Yes - number of hours training
- No

Search of academic and grey literature (e.g. census reports, NGO reports)

### 7.2 Training of nurses
Information about disability included as part of the national curricula for nurses

- Yes - number of hours training
- No

Search of academic and grey literature (e.g. census reports, NGO reports), key informant interviews

### 7.3 Training of CHWs
Information about disability included as part of the national CHW training curricula

- Yes - number of hours training
- No

Search of academic and grey literature (e.g. census reports, NGO reports)

### 7.4 Representation in health workforce
People with disabilities are represented in the health workforce

- Yes - percentage of medical doctors that have disability
- No

Search of academic and grey literature (e.g. census reports, NGO reports)

### 7.5 Satisfaction
People with disabilities report that they feel well treated by health workers

- Yes - in a quantitative survey from within the last 10 years persons with disabilities were asked about satisfaction with health worker services (in comparison to people without disabilities)
- Yes - qualitative data published in the last 10 years in a peer-reviewed journal on reported satisfaction

Search of academic and grey literature (e.g. census reports, NGO reports)

### 8.1 National accessibility standards
Existence of national accessibility standards

Yes/No

Search of academic and grey literature (e.g. census reports, NGO reports)

### 8.2 Accessibility of facilities
Accessibility audit of health facilities has been undertaken in the last 10 years

- Yes - results of audit report in published government report/documents or peer-reviewed journal

Search of academic and grey literature (e.g. census reports, NGO reports)

### 9.1 National assessments
National assessment on A1 or rehabilitation (e.g. STAR or KAT) done in the last 10 years

Yes/No

Search of academic and grey literature (e.g. census reports, NGO reports)

### 9.2 Coordination
Coordination mechanism for effective rehabilitation services and AT where more than 1 ministry involved

- Yes - number of hours training
- No - because only 1 ministry responsible for A1/rehabilitation

Search of academic and grey literature (e.g. census reports, NGO reports)

### 9.3 Trained workforce available to provide rehabilitation services and AT
Trained workforce available to provide rehabilitation services and AT

Search of academic and grey literature (e.g. census reports, NGO reports)
Article 25 – Illustrative indicators on the right to health

25.1. Legislation relating to health which legally recognises:
- The right to health of persons with disabilities to be enjoyed free of discrimination.
- The right to health of persons with disabilities to enjoy the same standards of health as other individuals.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.

25.2. Legislation relating to health which legally recognises:
- The right to health of persons with disabilities to be enjoyed free of discrimination.
- The right to health of persons with disabilities to enjoy the same standards of health as other individuals.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.

25.3. Legislation relating to health which legally recognises:
- The right to health of persons with disabilities to be enjoyed free of discrimination.
- The right to health of persons with disabilities to enjoy the same standards of health as other individuals.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.

25.4. Legislation relating to health which legally recognises:
- The right to health of persons with disabilities to be enjoyed free of discrimination.
- The right to health of persons with disabilities to enjoy the same standards of health as other individuals.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.

25.5. Legislation relating to health which legally recognises:
- The right to health of persons with disabilities to be enjoyed free of discrimination.
- The right to health of persons with disabilities to enjoy the same standards of health as other individuals.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.

25.6. Legislation relating to health which legally recognises:
- The right to health of persons with disabilities to be enjoyed free of discrimination.
- The right to health of persons with disabilities to enjoy the same standards of health as other individuals.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health services on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health education on a non-discriminatory basis.
- The right to health of persons with disabilities to have access to health information on a non-discriminatory basis.
