Reduction of  
Fossil Fuel Use  
and Emissions

**↓ 30%**

Reduction in  
Administration  
Building Energy Use

**100%**

Commitment  
to Sustainability

## A Sustainable Future for the Next Generation

When they first started their Partners for Green Places journey, Harvest House worked with professional energy auditors to conduct a detailed energy audit.

Using utility bill history and in-depth diagnostic testing, they developed an Energy Roadmap for the Mango and Family Haven campuses, which has helped them navigate a range of sustainability projects. Harvest House plans to implement all recommended upgrades as soon as possible and extend the knowledge to its many other facilities.

### PARTNERS FOR GREEN PLACES

Harvest House is one of many nonprofits that has participated in Partners for Green Places, a collaborative initiative designed to inspire local nonprofits, businesses and residents in Florida to take action through sustainable measures to advance the movement and dialogue on climate change.

“Partners for Green Places gave us the opportunity to receive a true energy audit without the interaction with salespeople with other motives. The roadmap gave us clear instruction on what professionals could offer and what items we could carry out ourselves.”

-

PROJECT DETAILS

# KEY PROJECT DETAILS

## SOLAR

Installed solar PV systems on 3 residential units.  
79 panels and 32.4kW total.  
Supplies 80-90% of electricity.  
Equivalent to planting 300 trees annually.

PROJECTED SAVINGS:  
\$\$\$

## HVAC

Replaced old HVAC units with high efficiency units.  
Upgraded conventional thermostats to Wi-Fi enabled programmable units, allowing centralized control and significant energy and maintenance savings.

PROJECTED SAVINGS:  
\$\$\$

## LED LIGHTING

Reducing energy consumption, heat generation, and maintenance with LED lighting retrofits.

PROJECTED SAVINGS:  
\$\$\$

## FAUCET & SHOWER HEADS

Installed low-flow shower heads and faucet aerators for water and energy savings.

PROJECTED SAVINGS:  
\$\$\$

## MAINTENANCE

Removed debris from A/C condenser units and re-insulated A/C condenser lines.

PROJECTED SAVINGS:  
\$\$

\* Savings from the Partners for Green Places program will help Harvest House further their mission to revitalize neighborhoods and provide service-enriched housing programs.

Savings will be used for regular property maintenance and to make improvements as buildings age - ensuring safe and well-maintained housing for Harvest House beneficiaries.
