West Village Loft | Abigail J. Shachat/AJS Designs

Location: New York, NY, USA | Photos © Björg Magna

To create a space that feels more expansive, the wall separating the living areas from the master suite was removed, thus opening up the southern window wall and flooding the space with daylight.

Floor plan

The materials in this NY loft were chosen for their depth, warmth and durability. One of the bathrooms is covered, floor to ceiling, with cork, which envelops the occupant.
