

## STORAGE ON FARM

Harvested grains and pulses are stored centrally on one of the farms, where they sit until storage and processing capacities allow for delivery to warehouse in Totnes.

## DELIVERY FROM FARM

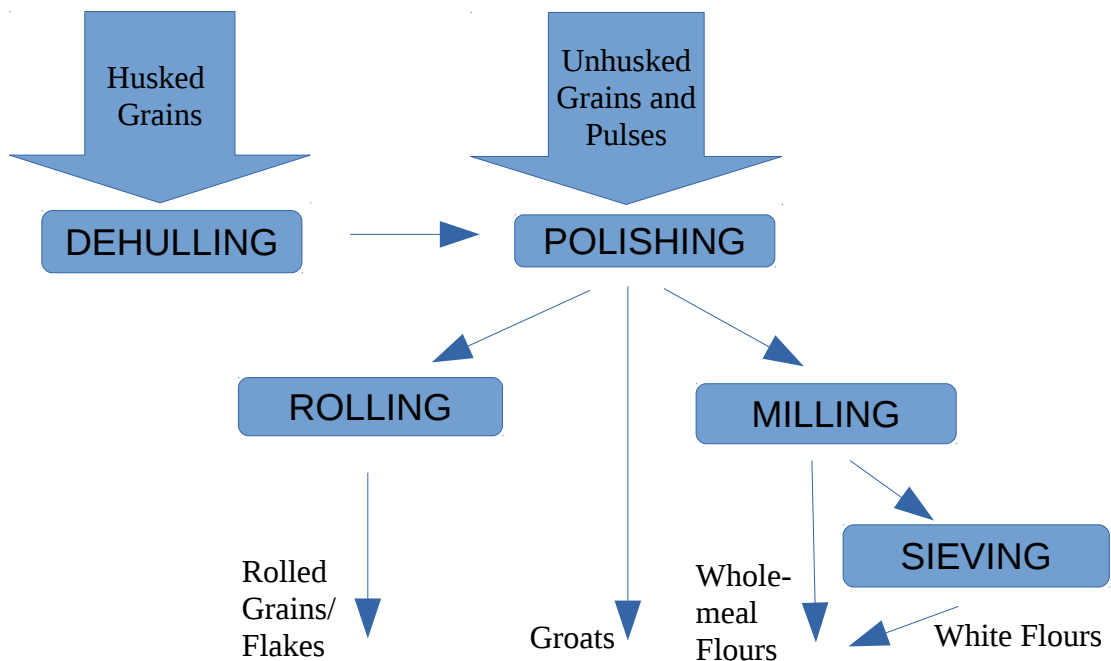

Grains and pulses are either transported by external haulages, by staff of Grown in Totnes or farmers themselves. Packed in dumpy bags, they are directly delivered to the warehouse.

## STORAGE OF RAW FOOD IN WAREHOUSE

In the warehouse, grains and pulses stay in dumpy bags until processed.

## PROCESSING

Grains and pulses are processed with small scale machinery, taken directly from dumpy bags. Using trugs, the hoppers are filled with grains and pulses by staff or volunteers.

## PACKING

All products are bagged the same day as they have been processed. Bag sizes vary between 750g, 1kg, 1.5kg and 10kg.

## STORAGE OF PRODUCTS

Until products get delivered, they are stored in the warehouse in their final packaging.

## DELIVERIES

Products get delivered by staff in the back of private cars or on bike trolleys.
