

OverFeed 5

A patented reflector light fixture designed to push light to the sidewalls. Overdrive's continued highest quality standard with high LPW and Dimmable features and PRICED TO COMPETE!

Introducing Overdrive's **PATENTED**

24V DC Feeder Light Fixture
5W/500 lumen
100 LPW/5000K

Note : - .Green marked light pattern is for LED Feeder Light
2. Red marked Light pattern is for traditional bulb 6W Directional.

Introducing High Efficiency 5W LED Feeder Light Fixture.

- Specially designed 'Patented' internal reflector directs the light to the side walls and provides uniform light even at low mounting heights
- LED Chip are coated with DOW Optical grade silicon to provide Long life to LED and prevents damages due to corrosive gases
- PC cover to protect LED from moisture and environmental gases
- Larger MCPCB for cooler LED operations
- Gasket construction to prevent Water and corrosive gas preventing LED damage
- Priced with the same cost effectiveness as other Overdrive LED ag models.
