Benefits of Climate Flow™:

- Ventilated seat spacer
- Maximum airflow while maintaining structure and durability
- Excellent compression sets compared to alternative products
- Extreme open cell foam for maximum temperature regulation
- Eliminates B-side fiber degradation and read-through
- More cost effective than other spacer fabric materials
- Manufacturing friendly with improved sew lines
- Multiple sheet “clean” cutting ability allows for minimal edge fraying and unraveling during handling
- Polyurethane based components foster mass reduction in vehicles
- Thicker options available to increase weight savings while maintaining maximum airflow
Automotive Foam Solutions

We are the largest North American supplier of polyurethane foam products and laminates to the automotive industry. Our technology allows manufacturers to tailor foam materials to customize automotive applications while improving comfort, reducing vehicle weight, and diminishing noise.

SOLUTIONS
We offer foam solutions for comfort, temperature management, acoustics, safety, and ventilation systems. Our production ready technology includes applications for seating, headliners, interior trim, pour-in-place barriers, and instrument panels. FXI innovative product solutions include:

- Climate Flow™
- Surefill®
- Sure Form®
- CustomFit™
- Trim Craft™

Plus Pad Portfolio
- Temperature Regulation Factor® Foams*
- Pressure Relief*
- Enhanced Support*
- Standard Auto Grades

*Next generation Plus Pads may need to be tested to automotive OEM specifications.

About FXI
FXI is a leading producer of foam innovation in the Bedding, Furniture, Industrial, Home & Office, Healthcare and Transportation Markets. Our focus is on finding tailored solutions for our customers that are driven by consumer insights and industry trends. Our products include finished goods, sub-assemblies, services and raw materials for OEMs, fabricators and retailers. You will find FXI’s foam innovations inside, around and under yourself in countless applications. We protect automobile passengers on the highway, help consumers sleep sounder and furniture manufacturers create comfort. We provide for sharper images in digital printers and help consumers keep their homes clean. We provide critical components for filters, gaskets and seals in everything from blood oxygenators to computer disk drives. Everywhere foam goes; FXI’s innovations lead the way.
