Q6. Summary										
	The Royal Family is better off without Harry and Meghan	Prince Harry should relinquish his rights of accession to the throne	The couple have treated the Queen shoddily	I approve of the couple's aim to 'carve out a progressive new role' for themselves	In the same way that Prince Andrew pays for Beatrice and Eugenie's protection, Harry should pay for his	Harry should not be allowed to remain titular head of the Royal Marines	Meghan has not received the support she deserves from the Royal Family	Meghan has not received the support she deserves from the British public	The couple will be able to successfully do what they describe as 'honouring their duty to the Queen, Commonwealth and their patronages'	The monarchy should be abolished
