Membership Renewal open for 2018
Membership renewal/signup is now open for the 2018 membership year.

Current memberships will expire on December 31, 2017. All current members can renew their membership through the KCAHE web site at www.kcahe.org.

KCAHE Golf Outing Proceeds Donated

KCAHE will be donating to hurricane relief funds in Texas, Florida and Puerto Rico established to assist hospital employees impacted by the recent natural disasters in those areas. These funds are endorsed by AHA and will assist employees and hospitals in getting back to operational capacity in the affected areas.

KCAHE will also be donating to Operation Breakthrough located in Kansas City, MO. This organization provides a safe environment for children living in poverty and assists their families through advocacy, emergency aid and education.

These donations are made possible through the funds raised at this year's KCAHE golf outing. A big THANK YOU goes all to all our members and participants in this year's event! Without your generous support, this would not be possible.
KCAHE Year-end Wrap-up

Thanks to all of our members, sponsors and friends for another successful year at KCAHE!

We held our second annual Poker Tournament to benefit scholarships for KCAHE members early in the year. Thanks to all those who played and donated, we were able to provide a KCAHE member with a scholarship to the ASHE Annual Conference.

KCAHE’s Annual Golf Outing was another big success! This year’s event raised enough money for KCAHE to donate to the wonderful organizations listed at the beginning of this newsletter.

KCAHE provided over 25 hours of educational training opportunities to our members including the CHC Exam review and Infection Control training.

The KCAHE Annual Conference exceeded all previous years in attendance. The event was a huge success and attendees enjoyed many inspiring and informational sessions including a speech by University of Kansas Men’s Basketball Head Coach Bill Self.

Energy to Care Update

Do you feel your Energy Star building numbers are low? KCAHE can help you review your numbers with many different hospital and vendor members. It is important to have accurate data input into Energy Star Portfolio Manager to know your building. Energy Star updates their data every few years and make changes based on the feedback they receive from their survey. Your inaccurate data could have a future negative impact on your Energy Star score when Energy Star changes the data parameters.

Energy Star also has free webinars available to insure you are getting the most out of your Energy Star Portfolio Manager. If you would like any help reviewing your Energy Star Portfolio Account, please reach out to a member of the KCAHE board and we can find the right resources for you.
