KCAHE NEWS

KCAHE Donates to Local Charities

KCAHE has made year-end donations to three local charitable organizations this year. These donations are made possible through your support of KCAHE each year.

KCAHE will again be donating to KVC Health Systems located in Olathe, KS. KVC Kansas helps over 12,000 Kansas children and their families each year through prevention services (family preservation), foster care case management, family reunification services, adoption, outpatient behavioral health and more.

KCAHE has also made a donation to MOCSA (Metropolitan Organization to Counter Sexual Assault). MOCSA exists to improve the lives of those impacted by sexual abuse and assault and to prevent sexual violence in our community. MOCSA's service area includes six counties in the bi-state Kansas City metropolitan area: Jackson, Platte, Clay, and Cass Counties in Missouri, and Johnson and Wyandotte Counties in Kansas.

An additional donation was made to Vibrant Health. Vibrant Health is a Federally Qualified Health Center operating three locations in Wyandotte County. Vibrant Health provides primary medical, dental, behavioral health care and women's health care for children and adults.

Thank you again to all our members, event sponsors and volunteers. Without your continued support, KCAHE would not be able to provide support to these important organizations serving our communities!
KCAHE Year-end Wrap-up

KCAHE has completed another successful year of providing educational, networking and social opportunities to its members. We are very grateful for the continued support and participation of our membership throughout the years!

KCAHE continues to provide valuable educational seminars to members. This year KCAHE members were able to take advantage of many sessions including ASHE based courses on Certified Healthcare Physical Environment Worker and the CHC Exam Review course. Johnson County Community College partnered with KCAHE to provide training on Driving Change and Influencing Others. Let us know if there are educational opportunities that you would like to see offered through KCAHE. You can submit suggestions to Tracy Johnson at director@kcahe.org.

The KCAHE Annual Conference celebrated its second year at Arrowhead Stadium (Go Chiefs!). Attendees received valuable information on Joint Commission requirements as well as presentations on behavioral health and different healthcare projects/facilities in the area.

Attendees also got an inside look into operations and life in the Chiefs organization through presentations from the Chiefs President and VP of Sports Medicine.
