with CIVIL CONVERSATION *on the* IMPEACHMENT *OF* DONALD TRUMP

Inspired by *IMPEACH: The Case Against Donald Trump* a book from former Acting Solicitor General Neal Katyal

WHY DID OUR FOUNDERS PUT IMPEACHMENT IN THE CONSTITUTION?

So they could remove elected officials for abusing their power.

WELL, DID DONALD TRUMP DO THAT?

1.

He asked the president of a foreign power to investigate his biggest political rival, Joe Biden.

2.

He solicited a bribe by withholding security aid from Ukraine, which our ally needed to protect itself from Russia.

3.

He tried to cover it up by hiding the transcript of his call and suppressing the whistleblower report.

4.

He has promised to do it again. (He literally asked China to investigate Joe Biden from the White House lawn.)

SO, SHOULD HE BE IMPEACHED?

Ultimately it's up to members of Congress, but they work for you! Read the book *IMPEACH*, then call your Representative and Senators and tell them what you think at: (202) 224-3121

SIDE DISHES *(FOR HEALTHY DEBATE)*

How would you feel if President Obama had asked Iran to investigate Mitt Romney in 2012?

Do you think the president should be able to use foreign aid to convince foreign countries to do personal favors for him?

Do you think President Trump left himself vulnerable to blackmail when he tried to keep his call with Ukraine secret?
