Chapter 1 - Administration

The Medical Reserve Corps (MRC) is a national network of volunteers, organized locally to improve the health and safety of their communities. In Massachusetts, the MRC network is comprised of 38 units. Each unit is organized to best suit the unique challenges of its area. In all cases, MRC units are local assets and are deployed at the discretion of local MRC unit protocols.

Units function as part of local emergency preparedness teams. They supplement existing public health resources and emergency agencies such as Red Cross, local public health, fire, police and ambulance services. Units recruit, train, credential, and organize medical, public health, and non-medical volunteers to strengthen their communities through volunteerism.

MRC volunteers offer their expertise throughout the year by supporting local public health initiatives, such as immunization and prevention activities. When there is an emergency in the community, MRC volunteers work in coordination with local emergency response programs. Most MRC units work with other local and regional emergency preparedness groups.

Interface with Agencies and Partners

The Federal MRC Program Office (MRCPO) is housed within the U.S. Department of Health and Human Services (HHS); Assistant Secretary for Preparedness and Response (ASPR). In Massachusetts, the MRC program is run by the Massachusetts Department of Public Health (MDPH) Office of Preparedness and Emergency Management (OPEM). MDPH OPEM works closely with other groups. Please see Appendix A for a description of responsibilities for each agency and partner organization.

MDPH Funding and Deliverables

For the current budget period (BP2), MDPH OPEM allocated $617,568 in emergency preparedness state match funds to support the operation of the federally recognized MRC units (https://mrc.hhs.gov/FindMRC) in Massachusetts. Approximately $88,224 in MRC funding is distributed to the identified host agency in each of the seven Public Health Emergency Preparedness Regions. This funding is intended to enhance local, regional, and state public health preparedness by supporting recruitment and increase MRC coverage and services so 100% of the cities and towns in each Region are served by an MRC unit. These funds may be used only for approved activities relating to recruitment, training, deployment, and management of MRC units. The funds will be distributed according to formulas determined by each region. Details can be found in Appendix K.

The current Grants Management Manual, MRC Workplan Template and Deliverables outline the eligibility requirements and conditions of funding (deliverables) for units and are available on the state MRC website:

Reporting
Unit leaders are required to file state and federal reports as part of their administrative activities.

MRC UNIT SUBMISSIONS REQUIRED FOR MDPH FUNDING
Unit leaders are emailed a link to the quarterly report submission, which includes unit updates and workplan updates, one month before the report deadline. See Appendix C – MRC Unit Submissions Required for MDPH Funding for more details. If you do not receive a link to this submission, please contact Regina Villa Associates (see Appendix B). Leaders should complete the report by the deadline listed below. Copies of the reports are sent to the Health and Medical Coordinating Coalition (HMCC) in each region.

<table>
<thead>

<td>July 15</td>
</tr>
</tbody>
</table>

Users can save their report and come back to it later and can export their responses as a PDF document at the final submission (links are on the final page).

FEDERAL UNIT ACTIVITY MODULE
The federal MRC website can be found at https://mrc.hhs.gov/HomePage. The site offers a map of MRCs across the US, as well as provides instructions on how to sign up for a national listserv which is great for sharing MRC ideas and materials. It is also where you can complete your quarterly activity reporting.

There are many resources available to new unit leaders regarding federal requirements and reporting, including:

There is also a recorded New Leader Orientation ([https://mrc.hhs.gov/pageviewfldr/WellCheckCalls](https://mrc.hhs.gov/pageviewfldr/WellCheckCalls)) that the MRCPO asks all new leaders to watch and then join an online New Leader Orientation Q & A session. These sessions are provided every other month with 1-2 staff of the MRCPO.

The next several pages provide instructions for completing the module and generating unit reports from the site. Appendix D provides supplemental information on this module including Frequently Asked Questions and Examples. A full guide to federal reporting can be found at: [https://mrc.hhs.gov/File/UAR/UAR_Module_Guidance_0317.pdf](https://mrc.hhs.gov/File/UAR/UAR_Module_Guidance_0317.pdf)

Completing the Module
1. Log in to the MRC website: [https://mrc.hhs.gov](https://mrc.hhs.gov)
2. Click on “Unit” tab
3. Click “Add an Activity”
4. Enter Type of Event (Emergency Response Incident or Non-Emergency/Public Health Event)
5. Enter the Start and End Date of the incident
6. Enter a Name for the incident you are adding
7. Select the mission that is most appropriate for the incident you are adding.
8. Select the Requesting Entity/Organization (Please note that this question refers to the entity or entities that requested volunteers and not the entity that activated the volunteers.)
9. Write the Description and Impact Statement (Include details such as what occurred, which types of agencies were present, what made it noteworthy, and why the activity was important or significant for your unit to conduct.)
10. Enter Volunteer Deployment Information
   - To enter the information, you have two options:
     - Enter the information manually by clicking your mouse in the box and entering data.
     - Click on the economic impact calculator icon and complete the necessary information. Once you have done that, the data will automatically populate on the report form and you can submit the report.
     ▪ Enter the total number of volunteers by profession and the total number of hours served by each profession.
     ▪ A subtotal will be automatically calculated and added to the total.
     ▪ Once you have added all of the volunteers and the hours served at the event, click on the “Submit” button and your total will be automatically calculated and added to your report.
11. Note availability of After Action Report (If you have completed or are planning on completing an AAR for the incident, select “Yes.”)
12. Enter Subjective Evaluations (Evaluate the unit and the response using the 1–5 Likert scale. One is the weakest score, and 5 is the strongest.)

Generating Summary Reports
1. Go to the Reports Tab
2. Click on Summary Unit Activities
3. Enter the Dates of the Activity Period and Choose the Type of Chart
Reports can include summary numbers and a breakdown of categorization (see below). If you would like to request a breakdown of your volunteer hours by profession (using the cost calculation), please contact the Medical Reserve Corps Program Office (see Appendix B). That information is available as an Excel file by request.

* All MRCs are required to alert MA DPH when activating for an emergency.

**Leadership**

Unit leaders must provide MDPH 24/7 contact information for leaders who should be contacted in case of emergency. Changes in unit leadership should be reported to the Federal MRC Regional Liaison and
Statewide MRC Coordinator as soon as the information is available. New unit leaders should also update their information on the federal website (see the Resources chapter for a detailed explanation on how to do this).

The federal website also has a Guide to MRC Unit Leader Transitions for outgoing and incoming unit leaders available here: https://mrc.hhs.gov/leaderFldr/UnitLeaderTools

**Jurisdiction**

Unit leaders must provide MDPH an annual list of communities covered by their unit. This information must be submitted to the Statewide MRC Coordinator through the Quarter 1 report (by October 15). Changes in jurisdiction should be reported to the Statewide MRC Coordinator immediately so the state website can be updated. Unit leaders must also update the unit information directly on the federal website (see the Resources chapter for a detailed explanation on how to do this).
Chapter 2 - Regional Representation

MRC Advisory Group (regional)
One representative from a federally recognized unit shall represent the unit on the Regional MRC Advisory Group. The advisory group must meet regularly to:

- Identify and address gaps in capacity and coverage within the region and ensure that all communities are provided coverage by an MRC;
- Provide the specific funding procedure or formula currently used to determine annual unit allocations with the Quarter 1 report; and
- Select a representative to participate on the Statewide MRC Steering Committee.

Steering Committee (statewide)
The Statewide MRC Coordination Steering Committee includes one representative from each Region’s MRC Advisory Group (See Appendix B for a current list of representatives). A description of the Steering Committee’s role can be found in Appendix E. Each Region’s MRC Advisory Group shall submit the name of its representative to the State MRC Coordinator prior to the first meeting of the Coordination Steering Committee in each grant year.

Each member of the Committee provides regular reports to his or her Region or Regional Coalition on the activities of the statewide MRC Coordination Steering Committee. The Committee meets (by phone or in person) approximately quarterly.
MA Responds is an online registration system for health and non-health volunteers. This system is a partnership between the MDPH, local Medical Reserve Corps units, and other volunteer organizations in Massachusetts. Registering with MA Responds allows people to volunteer for a variety of public health events. The MA Responds system is maintained by MDPH and the Massachusetts Medical Society (MMS). Technical questions should be directed to MDPH or MMS staff (see Appendix B for contact information).

As of BP2, federally recognized MRC units that receive state funding must register and credential all volunteers through MA Responds and attend a MA Responds training. If your unit has not been using MA Responds and you are receiving state funding, please contact the Statewide MRC Coordinator at MDPH for transition guidance.

Requirements for MRC Units
To be a unit in good standing, the unit must have a signed Memorandum of Understanding (MOU) with MDPH. To check on the status of your MOU, please contact the Statewide MRC Coordinator at MDPH (see Appendix B). Unit leaders must also log into the system at least once a week – to check the status of their prospective volunteers.

TRAINING
At least one administrator needs to complete the MA Responds Basic and Advanced Training. Trainings are posted on the state MRC website: [https://bit.ly/MARespondsTraining2020-2021](https://bit.ly/MARespondsTraining2020-2021) or can be requested at any time.

CHANGE IN LEADERSHIP
Upon a change in unit leadership, please complete an “Appendix C: Administrator Change Form” ([https://bit.ly/MARespondsAdminChangeForm2020](https://bit.ly/MARespondsAdminChangeForm2020)) within 60 days of the change and contact the Statewide MRC Coordinator at MDPH (see Appendix B).

Frequently Asked Questions
Many MA Responds resources, including webinars, are available at the MA Responds website ([https://www.maresponds.org/](https://www.maresponds.org/)) and on the Documents page of the state website (under “MA Responds” - [https://www.mamedicalreservecorps.org/documents](https://www.mamedicalreservecorps.org/documents)). A few highlights are shared below.

BACKGROUND CHECKS
All volunteers who register with a unit that utilizes MA Responds must undergo a CORI (Massachusetts Criminal Offender Record Information) check and a Validated Sex Offender Search (Nationwide VSOS). The CORI form can be found at: [https://bit.ly/MARespondsCORIForm2020](https://bit.ly/MARespondsCORIForm2020) and the VSOS is completed within MA Responds. Please note: CORIs cannot be accepted without photo ID verification. Volunteers must have their photo identification verified and this form signed indicating photo verification by a local program administrator or by a notary public before sending it in to MDPH with a wet signature for processing. In order to be considered a member of MA Responds, both checks must be resolved in a satisfactory manner. Both forms of background checks will be conducted in accordance with the policies outlined here: [http://bit.ly/MARespondsCORIPolicy2020](http://bit.ly/MARespondsCORIPolicy2020)

Volunteers who do not have a clean VSOS and a satisfactory resolution of the CORI process cannot be deployed.
CREDENTIALING
- Integrates with, Drug Enforcement Administration (DEA), and Office of Inspector General, List of Excluded Individuals/Entities (OIG LEIE) as well as Division of Professional Licensure (DPL), Bureau of Health Professions Licensure (DHPL), Board of Registration in Medicine (BORM) and Bureau of Substance Addiction Services (BSAS) State licensure boards for verification of professional licenses when a volunteer first registers, monthly, and prior to a deployment
- Automatically assigns emergency credential level in accordance with federal ESAR-VHP standards

DATA SECURITY
- All MA Responds communications are encrypted
- MA Responds is hosted in two Class A / Tier IV Data Center with redundant power and connectivity
- MA Responds meets the applicable security measures and is ISO 27001 compliant and SOC 2 compliant and certified

NOTIFICATION FEATURES
The MA Responds system features an integrated two-way notification system that can be used to contact volunteers via phone (including extensions), SMS text, pager, fax, email and TTD/TTY. While emails can be sent through the system at no cost, MDPH is charged for all other types of communication on a per use basis. DPH has pre-paid for a pool of minutes that can be requested by local units to use these features in an emergency (at no cost to the individual unit). Due to budget limitations, DPH has decided only to use the pool of minutes for these features in emergency situations. To request permission to use the non-email notification features of MA Responds, a unit administrator should contact the Statewide MRC Coordinator or Darryen Anderson at MDPH. If the request occurs during an emergency, and MDPH staff cannot be reached by the unit administrator, the unit administrator must follow the Guidance for Using Notification Features of the MA Responds System, available here: https://bit.ly/MARespondsGuidance2020. Unit administrators should also consult the MA Responds text/SMS instructions: https://bit.ly/MARespondsSMSInstructions2020.

JUVARE CORES MESSAGING APP
The CORES Messages app offers a subset of the MA Responds messaging module in a flexible platform that you can easily use while you are on the go. The app, which is free to download in the app store, is fully integrated with MA Responds so that you can send and receive alerts and notifications on your mobile device, Android tablet and iPad. To log into the IMX Messages app, you simply need to enter the MA Responds URL (www.maresponds.org) and the username and password that you use on the Web. Use the app to compose a message and send it via email, text message, and/or phone, compose and send a message based on an existing template, view responses from and send follow-up messages to groups of recipients and respond immediately to alerts and notifications that you receive. Please note that the app cannot be used for Mission Manager.

The CORES Messages app can be found here:
**CHANGING A VOLUNTEER’S PASSWORD**

This is one of the most common questions from volunteers, although they can reset their password by using the password reset function at [https://maresponds.org/pw_assist_request.php](https://maresponds.org/pw_assist_request.php).

1. Click on the Account Settings part of the profile and type in a new password in the two fields under the Reset Password bar at the top of the page.

2. After you have typed the new password twice, click on the “Change” button to save the information. An email will then be sent to your volunteer to notify them that the password has been changed, and the next time they log-in they will be required to change it again to something that they would like. Because of this security measure, you may want to reset all passwords to the same thing to make it easier.

**RESOLVING DUPLICATE ACCOUNTS**

To resolve duplicate accounts, you can ask MDPH or MMS to close one account. Please take the following steps to do so:

1. Look at the 2 accounts that are duplicate for a volunteer. It is recommended that you close the account without the CORI and Nationwide SORI results or the account that is less complete.

2. Make sure all information that is in the account you will close is also in the other (contact and licensing information, etc.) You can print out pages of the profile in order to enter in data to the account that will remain open.

3. Click on the Contact sub-tab under the Profile tab to remove the email from the account that you will close so that the email address can be used by the account that remains open. The email can be removed by clicking on the button that says “Edit Information,” then clicking on the “x” to the right of the Primary Email Address box, and then clicking the “Save Changes” button at the bottom of the screen.

4. Finally, to close the desired account, contact Darryen Anderson (darryen.anderson@mass.gov) or Johnna Coggin (jcoggin@mms.org) for assistance.

**SEARCHING FOR VOLUNTEERS WHO ARE READY TO BE ACCEPTED**

1. Begin by clicking on the Responders tab and, on the next page, the Responder Search tab.

2. On the search screen under the "Memberships" section, select the volunteer group you want to view from the "Organizations Selection" button. All organizations will be listed here, but you will only be able to see results from the organization(s) you have permission to see.

3. Select "Pending" from the Unit Status list that is also in the “Memberships” section (Note that you must always select "Pending" to see pending volunteers, since the default search is to look for "Accepted" volunteers).

4. Under "the Background Check" section, select "CORI: Complete: Clear" and “SORI Complete – No Match Found” from the Status list, which will give you everyone who has completed their CORI and/or Nationwide SORI check. You will then have your list and can review each member's profile to make sure both background checks have been completed and other information you want is included, and then change their status to "accepted" on the Affiliation part of their profile.

**PERFORMING A BATCH ACCEPTANCE**

This may be helpful if you are an organization that routinely runs large numbers of CORIs and then needs to accept all the CORI and Nationwide SORI passed volunteers at once to save time. It may also be helpful if you can’t remember who you’ve submitted CORIs for but need to accept your volunteers.
1. Go to "Organizations" tab and click on the blue hyperlink “Dashboard” for your organization.

2. Once you are on the Dashboard for your organization click the “Members” tab from the left-hand side of the screen.

3. Change the Display Filter (in the blue box) to show pending or researching (if you use this status) volunteers. *Note—organizations like to use "Researching" as a status to change volunteers to once they’ve collected their CORIs which is good for keeping track of volunteers. However, volunteers can be kept as "Pending" too until they’re accepted*

4. Click on the "Check All" box and then pick "Select All Across All Pages" from the drop-down menu that appears.

5. At the bottom left of the page select an Action of "Set to Accepted" and then click the "Submit Action" button.

6. All volunteers that have a CORI and Nationwide SORI status of "Complete-Clear " will be accepted and all others will pop up as an error since the system won’t allow you to accept volunteers who haven’t completed their CORI and Nationwide SORI checks.

**REQUESTING MARKETING MATERIAL**
Chapter 4 - Volunteer Management

Written Plans
Units should develop and follow their own written policies and procedures on the following volunteer management topics:

- Recruitment
- Training
- Activation and Deployment
- Demobilization

Many existing templates and sample plans are available for reference and can be adapted into a unit’s policies and procedures to suit the needs of specific MRC unit. Specifically, the Activation, Deployment, and Demobilization Plan template at http://bit.ly/MRCDeploymentPlan2020 (Appendix L) was developed in 2019 and can be adapted as needed.

Unit leaders should ensure volunteers understand the unit’s policies and standard operating procedures.

Credentialing and Background Checks
Each MRC unit must credential volunteers in accordance with pre-established standards in MA Responds including completion of the MA criminal offender record information (CORI) check and the submission of a Validated Sexual Offender Search (VSOS) check. Units are considered in compliance with this requirement (see the MA Responds chapter for more information about credentialing and background checks) when volunteers are considered “accepted” within the system.

Volunteers who have not completed the credentialing process will not be considered deployable through MDPH and will not be utilized for staffing of any MDPH activation.

REQUESTING VOLUNTEER ASSISTANCE FROM OTHER UNITS IN NON-EMERGENCIES
To request MRC assistance from another unit in non-emergencies, you may contact another local unit leader directly. If that local unit cannot provide all of the assistance you need, fill out a Volunteer Request Form at http://bit.ly/MRCVolunteerRequest2020 (Appendix F) and send it to Regina Villa Associates staff (see Appendix B), who will share the request with the statewide database of unit leaders.

REQUESTING VOLUNTEER ASSISTANCE DURING AN EMERGENCY
If you need MRC assistance from outside your jurisdiction in an emergency, and the ESF 8 desk is not staffed (or you are unsure) please contact the DPH 24/7 duty officer at 617-339-8351. This call could come from a community representative directly or from a unit leader on behalf of a community. If the ESF-8 desk is staffed during the emergency, please contact the desk directly1.

Either the duty officer, the ESF-8 desk or members of the DPH’s Office of Preparedness and Emergency Management (DPH OPEM) Volunteer Support Team (VST) will ask you a number of questions in order to fill out the Volunteer Request Form (Appendix F). ESF-8/VST staff will contact unit leaders statewide to see if the request can be filled.

1 Contact information for the ESF-8 desk will be shared with unit leaders when the desk is activated.
RESPONDING TO A REQUEST FOR VOLUNTEERS FROM OUTSIDE YOUR JURISDICTION

- When receiving a request for volunteers from MDPH, units should send out a message using the MA Responds system to accepted and deployable volunteers within 2 hours of initial notification to all accepted volunteers to ask their availability.
- Units shall work with MDPH within 4 hours of initial notification to assign needed volunteers to requested roles/positions.
- Unit leaders should complete one Volunteer Deployment Roster (Appendix H, or at http://bit.ly/MRCDeploymentRoster2020) per location, per shift, and send the completed Roster to the requesting entity. Alternatively, information from the Volunteer Deployment Roster may be entered into a spreadsheet and sent in place of the Roster.

Badging

In order to promote uniformity in statewide badging, representatives of local MA MRC units formed a Badging Committee to provide template recommendations. These recommendations were adopted by a unanimous vote of the MA MRC membership during a conference call in April of 2007.

There is not an official MA DPH or federal MRC badge policy; local units may choose to adopt this template.

SAMPLE BADGE TEMPLATE

LANGUAGE ON BADGE BACK

MDPH legal counsel recommended that the badge not include any language about the legal authority of MRC members. MRCs are likely to be deployed in many and varied situations around the state, for both routine situations and disasters. No single statement of authority would necessarily be accurate. If locally-based MRC units want a statement of legal authority on their badges, leaders should consult with the town counsel or city solicitor for guidance on whether a statement is appropriate and if so, what it should say.
The final recommended language is as follows:

This badge is the property of

[Unit Name]

[Unit Address]

If found, please return to:

[Mailing Address/contact info]

COLOR CODING

The committee recommended a basic color coding scheme: Red for Medical Personnel; Green for Non-Medical Personnel; and Purple for Mental Health Personnel. Local units can choose their own colors for any other categories they wish to employ (pink for child care, for example).

BADGE RENEWALS AND EXPIRATION STICKERS

The committee recommended using a sticker system for renewal. The badge itself would contain the DAY/MONTH of expiration, while the sticker would state the expiration year. Non-licensed volunteers would renew the badges every two years, while licensed volunteers would renew annually.

To request expiration stickers, please contact Regina Villa Associates (Appendix B). To place an order, please indicate the year of the sticker, quantity, and your mailing address.

Training

Per the BP2 Medical Reserve Corps Deliverables, MRC Units should recruit, train, and retain members specifically to enhance public health preparedness activities related to Emergency Dispensing Site (EDS) operations and public health programs and emergencies. Units are required to:

- Maintain records of completion of trainings by MRC members;
- Maintain copies of training agendas and attendees to submit to OPEM through Regina Villa Associates (quarterly);
- Offer trainings for unit members and ensure core competencies are achieved, as appropriate.

Units that would like to host or attend a training or conference using PHEP or MRC funds (including staff time) must complete the appropriate training/conference form (Appendices I & J). Additional requirements can also be found in the Grants Management Manual.

The Federal Program Office has also developed a core competency guides for Disaster Medicine and Public Health:

Medical Reserve Corps Volunteer Core Competencies:

MA Responds:

For information on MA Responds training, please see Chapter 3.

Drills and Exercises

Per the BP2 Medical Reserve Corps Deliverables, units must participate in and facilitate quarterly drills (1 drill/quarter). Participation must include two (2) MDPH sponsored drills and two (2) individual unit sponsored drills to satisfy the PHEP-HPP Volunteer Management Joint Performance Measure.
Drills will be conducted using the MA Responds system.

An After Action Report (AAR), unit specific results report or completion of the MRC call-down template must be submitted within 30 days of all unit sponsored drills:

Per the Deliverables, units are required to complete at least two additional drills or call-downs. MDPH will organize four drills for units who wish to participate in additional MDPH-sponsored drills. Drills/exercises that are not sponsored by MDPH require advanced notification (at least 30 days prior to the exercise) through submission of the Exercise Notification Form (Appendix J) to the HMCC (see contact list on HMCC website: https://www.mass.gov/service-details/learn-about-the-health-and-medical-coordinating-coalitions).

**Volunteer Satisfaction**

Unit leaders are encouraged to survey the satisfaction levels of their volunteers and are welcome to use or adapt parts of the Volunteer Satisfaction Survey Template at http://bit.ly/MRCVolunteerSurvey2020 (Appendix M) when doing so. The template includes optional blocks of questions about trainings, deployment, drills, and demographics. Unit leaders can distribute the survey via online tools, such as SurveyMonkey, or print and collect paper copies.
Chapter 5 - Resources

Federal MRC Website (https://mrc.hhs.gov)

The federal MRC website, maintained by the MRC Program Office (MRCPO), offers many resources for unit leaders and volunteers. Unit leaders are expected to update information about their unit on the federal site, quarterly at minimum. If you have technical questions about the site, please contact the Webmaster (see Appendix B - Important Contacts).

Note: Recorded webinars on Unit Activity Reporting Guidance and Instructions and COVID-19 Activity Reporting Tips can be found at: https://mrc.hhs.gov/pageviewfldr/WellCheckCalls under August 2020.

MRC DIRECTOR/COORDINATOR

To register to use the interactive features of the MRC Web Site, select the “Register” link on the header and follow the instructions.

- Enter your e-mail address and select a username and password.
- Complete your contact information. Ensure to select MRC Director or MRC Coordinator and your unit’s state and name (or “New Unit” if registering a new MRC unit).
- The system will display that your information has been submitted and that you will receive an authorization e-mail in 5–7 days.

Once approved, you will receive one e-mail indicating your basic account is approved and another e-mail if you are approved as an MRC Director or Coordinator. Note: you may receive a phone call from a member of the MRCPO prior to approval to verify your position as Director or Coordinator.

Once approved as a registered Director or Coordinator, you will have access to your and your unit's personal account information. Please verify that everything is correct with your MRC unit information by following the “Updating Unit Information” link on the website; update the information quarterly, at a minimum. As the Director or Coordinator, we advise that you update your unit information to include your volunteer numbers and major unit activities. You may receive quarterly reminders to review and update the information.

UPDATING UNIT INFORMATION ON THE FEDERAL WEBSITE

As a registered MRC Coordinator or Director, you have permission to change the content information for your unit. To make adjustments to your unit's content information, log on to the website site using the LOGIN link on the homepage of the website (upper right hand corner) and the username and password you created at registration. Once logged in, you will see four tabs – My Info, Unit, Reports, and Report Issues, in the “User Panel” of the website. Click on this “Unit” tab. The next page will include all of the fields for your MRC unit, which you should maintain and keep accurate. After making any corrections in each section, simply click “Submit” button.

Please review your profile often for accuracy and completeness, including the following fields:

- Basic Unit Information including Jurisdiction Information
- Regular and Emergency Contact Information
- Volunteer Counts
- Unit Activities (examples can be found on the Activity Reporting page: https://mrc.hhs.gov/SearchFldr/Search.aspx?search=activity%20reporting)
- Additional Unit Information

Note: Only the MRC Program Office staff and you can see the emergency contact information. This will not be shared with other users of the website.
UPDATING PERSONAL INFORMATION ON THE FEDERAL WEBSITE
Once logged into your account, click on the “My Info” tab. Here you may make changes to your personal information including all demographics, e.g. email address and phone numbers.

Note: You will be unable to change your personal information on the Unit Profile directly – all personal information must be changed in this “My Info” section and it will auto-populate into the Unit Profile.

State MRC Website (www.mamedicalreservecorps.org)
The state MRC website is maintained by the Department of Public Health and Regina Villa Associates. If you have technical questions about the website, please contact staff at Regina Villa Associates (see Appendix B – Important Contacts).

FIND AN MRC UNIT
This section allows volunteers and unit leaders to search for an MRC unit geographically (via a map) or by searching by municipality. It also contains contact information (and website, if applicable) for local MRC unit leaders. If information about your unit (jurisdiction covered, contact information) needs updating, please email Regina Villa Associates (see Appendix B).

DOCUMENTS
The Documents page provides many resources for MRC unit leaders. In addition to forms and protocols, it also is a repository for trainings and contains a unit leader toolbox. If you would like to add a training or other resource to this page, please just email Regina Villa Associates (see Appendix B), and we are happy to post and share it. Please visit the Documents page regularly to stay up-to-date on new resources and forms.

CALENDAR
The Massachusetts MRC website (www.mamedicalreservecorps.org) features a statewide calendar for important events. Units wishing to promote their events statewide should submit event information to the Department of Public Health and Regina Villa Associates. Please include details about your event, including:

- Time and Date
- Location (with street address and/or Google Maps link)
- Brief description
- Any registration or RSVP instructions
- Contact person for questions
- A photo and/or graphic

MRC Federal Listservs
The federal program office offers two MRC Listservs. The first option is the one-way listserv (medicalreservecorps-l), which is used by the MRCPO to share information on upcoming events, new resources, changes to the Web site, and major announcements. The second option is the two-way listserv that allows for those active in the program to share ideas, resources, best practices, and lessons learned. This listserv is conversational and allows for great interaction between units, the MRCPO, and others involved in the program. The two-way listserv automatically registers subscribers for the one-way listserv, so unit leaders interested in both lists should only subscribe to the two-way listserv. All subscribers must review the MRC Leaders-l Rules and Regulations before subscribing.

To subscribe the one-way listserv (email notifications), do the following:
• Go to the MRC Listserv homepage at https://list.nih.gov/cgi-bin/wa.exe?SUBED1=MEDICALRESERVECORPS-L&A=1
• To register for the one-way listserv, select the link under the one-way listserv section.
• On the next page, enter your e-mail address, full name, and then select “Join the List”.
• You will receive an e-mail message to confirm your request to join the listserv.

To register for the two-way listserv:

• Go to the two-way listserv rules and regulations page:
  https://mrc.hhs.gov/searchFldr/ListservRulesRegulations
• Review this page.
• Then, select the hyperlinked sentence “By clicking on this link, I agree to abide by these Rules of Conduct.”
• On the next page, enter your e-mail address, full name, and then select “Join the List”.
• You will receive an e-mail message to verify your subscription to the list.

**Use of the MRC Logo**

The MRCPO offers registered units the opportunity to request use of the official MRC logo. The logo may be used on unit developed items identified in your logo authorization application.

To request logo authorization:

• Login on the homepage of the website (https://mrc.hhs.gov), enter your username and password.
• Select the “Logo Request/New Use” link from the My Info tab.
• Select the “Online Form” link to complete the authorization online.
• Select the Unit that will be using the logo, or complete the Other Organization information.

Please read the logo authorization carefully; it also is advisable to print a copy of the Logo Agreement for your records. If you agree to the terms of the agreement, select the “I Agree” button.

Complete all fields on the logo authorization details screen. You must state specific logo uses in the “Description/Quantity” field. For example, if you plan to use the logo on letterhead, business cards, and postcards, state this in the description box along with the expected quantity of each.

Upon completing the logo authorization, you have temporary access to three MRC logo file formats that can be used for 30 days pending approval by the MRCPO. For your convenience, you will be able to download the logo files from the website, including a vector file, which is a higher resolution version of the logo.

An automated email will be sent to you at your e-mail address within 30 days of your application submittal, informing you of your approval or rejection to use the MRC logo permanently.

To update your logo use on items:

• Follow the same process as above.
• If your unit or organization has an approved or pending authorization on file, you will be able to add additional Logo Uses to your online record.

Appendix C - MRC Unit Submissions Required for MDPH Funding

Appendix D - Federal Reporting Module Supplemental Information

FREQUENTLY ASKED QUESTIONS
Can I select more than one mission?
You can select all missions that apply to the activity. You may also want to consider reporting multiple missions as separate incidents.

Why is my mission not listed?
You can select “Other” and a text box will appear for you to enter the mission. Keep the text you enter to a minimum. Only select “Other” as a last option.

Can I select more than one entity?
You can select more than one entity if multiple agencies requested activation of volunteers for the same incident.

What if the entity is not listed?
Select “Other” and a text box will appear for you to enter the appropriate requesting entity. Only select “Other” as a last option.

Should I count the unit coordinator in the total number of volunteers?
Only if he or she serves in that role as a volunteer and is donating his/her time.

Do I count the hours served by paid staff?
No.

What if a medical volunteer is serving in a non-medical capacity during a response?
That volunteer’s hours should be added under the Non-Public Health/Non-Medical category.

What if I don’t know the professional breakdown of the volunteers?
All the data should be entered under the Non-Public Health/Non-Medical category.

Do I have the ability to edit the subtotal or total amounts shown in the economic impact calculator?
No.

Do I have the ability to edit hourly rate and benefit within the calculator?
Yes, but please do not. It is important that hourly rates and benefits be uniform across units for standardization.
How should volunteers be categorized for trainings?
They should be listed as Non-Public Health /Non-Medical category for all trainings. Professions should only be listed for deployments in the appropriate category

Do I need to be the lead agency completing the AAR to select “Yes?”
You do not.

EXAMPLES
Types of Events

1. MRC volunteers were activated to work in a general population shelter following a winter storm. (Selection: Emergency Response Incident)
2. Relay For Life requested MRC volunteers to work a first aid tent. (Selection: Non-Emergency /Public Health Event)
3. MRC volunteers received training on their emergency response activation protocols and completed a full-scale exercise to test understanding of the protocols. (Selection: Non-Emergency /Public Health Event)
4. MRC Unit Coordinator attended a state-sponsored seminar on Emergency Response and Public Health. (Selection: Non-Emergency /Public Health Event)
5. During an outbreak of a novel strain of influenza, a public health institution setup a Point of Dispensing site and MRC volunteers served as vaccinators and provided administrative support. (Selection: Emergency Response Incident)

Start and End Date

1. Completed wellness checks for first responders during search and rescue event (Start Date: 10/15/2013; End Date: 10/15/2013)
2. Provided medical support in a shelter during tornado response (Start Date: 05/06/2014; End Date: 5/07/2014)
3. Provided support at local Emergency Operations Center during flooding event (Start Date: 04/20/2014; End Date: 04/25/2014)

Name of an Incident

1. MRC volunteers provided tetanus vaccinations following a tornado. (Incident Name: Tetanus Vaccinations for County Tornado Response)
2. MRC volunteers worked in an alternate care site following a measles outbreak. (Incident Name: Measles Alternate Care Site Activation)
3. MRC volunteers assisted with evacuation during hurricane. (Incident Name: Hurricane Sandy Evacuation Assistance)

Missions

1. Mental health MRC volunteers provided Psychological First Aid following an earthquake. (Mission Selection: Disaster Behavioral Health)
2. MRC volunteers provided first responder support and assisted efforts during a search-and-rescue incident. (Mission Selection: Wellness Checks and Search and Rescue)
3. MRC volunteers sorted and moved tree limbs and other trash following a tornado. (Mission Selection: Other—Debris Management)
4. Following a hurricane, MRC volunteers assisted with evacuation; 3 days later volunteers were requested to work in a general shelter. (Mission Selection: Enter as two separate incidents—Evacuation and General Shelter Support)
Entries

1. The Local County MRC volunteers were activated to respond to a search-and-rescue incident. Local first responders were searching for an elderly woman who was missing from the local retirement home. Local emergency management requested MRC volunteers to provide wellness checks for first responders because it was very hot. Volunteers also acted as searchers. MRC volunteers discovered that two first responders had to receive additional medical attention from heat exhaustion. Eventually, the woman was found unharmed.

2. Following a devastating tornado, a flood of unaffiliated volunteers arrived onsite. The Local Emergency Operations Center was unsure of how to handle the sudden influx of volunteers and requested MRC volunteers to manage a Volunteer Reception Center. MRC and AmeriCorps volunteers managed an estimated 1,200 unaffiliated volunteers over a 3-week period. The unaffiliated volunteers were able to be used in an appropriate manner and were encouraged to join volunteer groups, like the MRC or CERT, in their own communities.

3. This spring, our community experienced a severe flood that forced several local families to evacuate their homes for a general population shelter. The floods also ruined several crops, which many families rely on for their income. The American Red Cross had enough volunteers to work in the shelter, but the shelter manager became concerned about the mental well-being of the occupants. Knowing our work with mental health in disasters training, the ARC requested MRC volunteers to work in the shelter. Seven MRC volunteers, all mental health professionals, split shifts over a 2 week period in the shelter and visited with 10 different families. Two families were referred on to receive additional mental health attention.

AAR Examples

1. Local emergency management completed an AAR following an evacuation with which MRC volunteers from the local health department assisted. (AAR Response: Yes)

2. Local public health has just finished managing an influenza outbreak, in which MRC volunteers assisted as vaccinators. An AAR will likely be done, but it has not yet been completed. (AAR Response: Yes)

3. MRC volunteers assisted another volunteer organization with a volunteer reception center. The volunteer organization is not planning on completing an AAR. (AAR Response: No)

4. MRC volunteers were requested by the state health department to assist with dispensing tetanus shots following a tornado. You are unsure if the state will complete an AAR. (AAR Response: Unsure)

Subjective Evaluations

1. During a mass dispensing operations, the Incident Command System (ICS) was utilized by the local health department to manage the situation. Most of the MRC volunteers had received the appropriate ICS training, but there were a few who were confused and lost in the management structure. (ICS Appropriately Used Response: 4)

2. Following a winter snow storm, emergency management requested 10 volunteers to assist with disaster mental health in a shelter. Due to poor communication and the weather, the request could not be filled for several operational shifts. (Timeliness of the Response: 1)
