

WHERE DO ALL THESE CLOTHES GO....

REUSE

50% of all items collected are reusable

this is the most sustainable way to give these pieces a second life

all reusable items are distributed to emerging second-hand markets overseas where they provide job opportunities and high quality clothing to low income communities

SHREDDING

26% of all items collected are shredded

this low grade fiber material is used in carpet padding, insulation, acoustic dampening materials and furniture stuffing along with other end uses

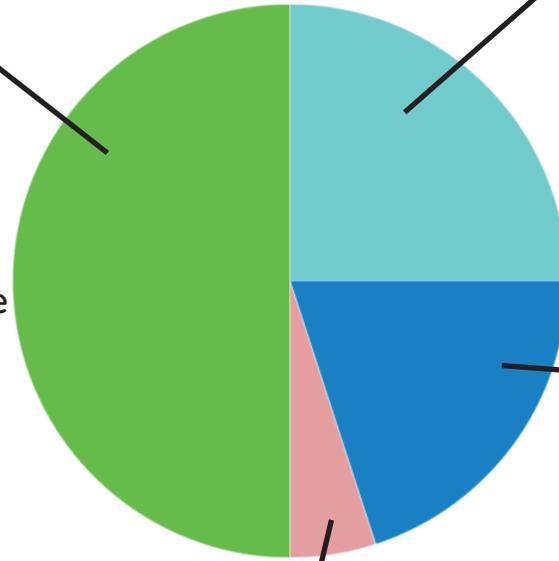

RAGS

20% of all items collected are repurposed into rags

non-wearable items that fit the right fabric requirements are cut into rags and used in the automotive and cleaning industries

NON RECYCLABLE

4% is currently non-recyclable but we are searching for new innovations daily
