Hygiene Kit Instructions

You have the option of creating personal hygiene kits for our grateful shower guests. It’s easy to organize and makes an incredible difference in their ability to stay clean between showers with us.

*New, single-use hygiene products only, please.*

To kick off your effort, follow these simple steps:

**Plan how many hygiene kits you’d like to make with your group.**

Estimate 100 kits an hour for a group of 15 people. Purchase or source donations from the contents list. Single-use products, all new/unused, please.

**Assemble hygiene kits. Begin by separating hygiene items by type.**

Once the items are separated by type, create an assembly line and package each item into gallon sized plastic bags, or re-usable totes and *package them into boxes.*

*Pro Tip: Seal up the plastic bags 2/3 of the way, and roll the items over to rid the air and seal immediately. You’ll be able to package more kits into each box!*

**Schedule drop-off, or ship to any of our warehouse locations.**

We accept in-kind donations at our Alameda and Los Angeles warehouses. If shipping, please include a note with your full name, number, and e-mail.

If delivering in-person, please contact us to schedule drop-off.
