In response to the .ORG community’s requests for increased clarity around Ethos’ commitments, Ethos has voluntarily proposed to add an amendment to .ORG’s Delegated Agreements with ICANN in the form of a Public Interest Commitment, or a PIC.

WHAT IS A PIC?
A Public Interest Commitment (PIC) is a legally binding contract enforceable both by ICANN and by members of the community through ICANN’s Public Interest Commitments Dispute Resolution Procedure (“PICDRP”).

WHICH NEW PROVISIONS WILL BE INCLUDED IN THE .ORG PUBLIC INTEREST COMMITMENT?

**Community Enablement Fund**

PIR’s anticipated contribution to the fund: $10 million over the remaining life of the current Registry Agreement.

**PIR Annual Public Report**

Produce and publish an annual report that assesses PIR’s compliance with the PIC & ways in which PIR pursued activities for the benefit of the registrants during the preceding year.

**.ORG Stewardship Council**

Will have authority to provide independent advice — and a binding right to veto modifications proposed by PIR to its policies regarding:

- Anti-abuse and freedom of expression
- Use of .ORG registrant and user data
- Affordability

Fees charged to registrants for initial or renewal registration of a .ORG domain name will not increase by more than 10% per year on average for eight years from the start of the current Registry Agreement.

**Ensuring a Bright Future for PIR and .ORG Registrants & Users**

The full text of the PIC may be viewed at [KeyPointsAbout.org/Accountability](http://KeyPointsAbout.org/Accountability).
