Station Services:

Staffed Station: Station agent(s) available to handle all your in-person ticketing and baggage needs. Staffed stations offer **station-checked baggage**, in which departing passengers drop off checked bags at the ticket office at least 30 minutes before departure, and arriving passengers claim their bags at the ticket office up to 48 hours after arrival.

Train-side Checked Baggage: Unstaffed stations offer train-side checked baggage, in which bags are handed off and picked up on the platform, while the train is in the station. Baggage checked between unstaffed stations and staffed stations simply use the available method of checking at each station.

Station Building: Full enclosure with restrooms and a waiting area for all passengers.

Sleeper Passenger Lounge: Our Los Angeles, San Jose, Sacramento, and San Francisco stations offer private lounge space for sleeper passengers, with comfortable recliners and couches, outlets, complimentary snacks and soft beverages, and more.

Onboard Services:

Coaches: 100% reserved, reclining coach seats offering more legroom than any domestic first class product.

Sleeping Cars: Roomettes, Bedrooms, and Bedroom Suites. Sleeping car passengers can enjoy personal porter service, complimentary beverages in their car, and a 50% discount on all food and drinks ordered in the dome or dining cars.

Dining Car: Hot, multi-course, sit down meal service is available in our dining car between Los Angeles and Sacramento. Overnight, a smaller variety of hot entrees are available. Between San Jose and Sacramento, take-out snacks and drinks are also sold in this car.

Dome-Lounge: Full dome car offering panoramic windows, a bar with bartender, seats, booths, and tables. A variety of snacks, soft beverages, and cocktails are available for purchase throughout your ride. Movies are also screened in the evening.

Express Meal Service: Between San Jose and San Francisco, a breakfast buffet (northbound) and hot dinner (southbound) are served in the dome car.
