Colorado Communities for Climate Action
March 2022

Colorado Communities for Climate Action is a coalition of counties and municipalities advocating for strong state and federal climate policy. As local governments and local elected officials, we have a unique perspective on the threats and challenges that climate change poses, a perspective that is often overlooked in the policy debates. Our members have come to understand that climate change poses unique and severe risks to our communities and that we cannot meet our own local climate goals without effective state and federal policy.

The coalition’s 39 local government members include:

- Adams County
- Aspen
- Avon
- Basalt
- Boulder

- Extend current authorities and provide new ones for local action.
- Set new state climate-protection goals.
- Define and implement concrete steps to meet those goals.
- Reduce carbon pollution through concrete new policies on electricity generation, energy efficiency, transportation, and waste management.
- Ensure that all of Colorado benefits from the clean energy transformation.
