Collaboration: lack of trust is the main challenge to overcome

In a car, around 28,000 parts are assembled, made out of thousand different materials. One of the biggest sustainability issues in the automotive is the responsible sourcing of raw materials. To tackle these, Drive Sustainability, a collaborative partnership, was set up a few years ago. Read our interview on the virtues of collaboration with F. Geckeler, Sustainability Manager at BMW, a member of the partnership.

The Sustainable Development Goals

SDGs enable to focus on impact & seize business opportunities

In 2015, European Aluminium adopted a ‘Sustainability Roadmap 2025: Common Goals, Shared Action’, driving their sustainability activities at sector level. This year CSR Europe collaborated with European Aluminium to connect this roadmap to the SDGs and engage their members on the topic through research and a workshop. It turned out that circular economy, future of skills & education, climate action and collaboration are key priority areas for the aluminium sector. Coline Lavorel, European Aluminium and Rosa Garcia Piñeiro, Alcoa Foundation gave their feedback after the workshop. Read more

Training on Business and Human Rights: Save the date!

CSR Europe is happy to announce that, for the second year, our National Partner Organisations will be delivering a series of corporate trainings on Business and Human Rights (BHR) across Europe. This series is designed to give a broad perspective on the role and application of Human Rights in global and local business practices. Each session is open, not just to CSR Europe corporate members, but also to their affiliates: It is an opportunity for our members to send employees from their local affiliates to a free training on BHR delivered in their own language.
